Ohio River Trail Council

"Joining communities through fitness, recreation, heritage and transportation networks"

May 14, 2017

Ann Ogoreuc, AICP
Manager, Transportation Initiatives
Allegheny County Economic Development
One Chatham Center, Suite 900
112 Washington Place
Pittsburgh, PA 15219

Dear Ms. Ogoreuc,

On May 11, 2017, the Crescent Township Board did not approve the Active Allegheny Grant application for the planned Ohio River Greenway Trail Airport Connector since there was insufficient time to obtain the supporting Resolutions from Moon and Findlay. The Findlay Township Supervisors next meeting is May 25, 2017, Moon Township is May 31, 2017, and Crescent Township is June 8, 2017.

The Ohio River Trail Council is respectfully requesting an extension to provide the participating communities an opportunity to approve a resolution for the Active Allegheny Grant. All three communities support the initiative.

This project is the last section of the Ohio River Greenway Trail in Allegheny County that requires engineering and design in order to provide the safety improvements for the on-road route.

I have attached a summary of the project and letters of support.

On a personal note, I am planning to retire in 2018 and would like to see this project completed before my departure.

Thank you in advance for your consideration of my request.

Respectfully submitted,

Vincent Troia

Ohio River Trail Council

"Joining communities through fitness, recreation, heritage and transportation networks"

May 8, 2017

Ann Ogoreuc, AICP
Manager, Transportation Initiatives
Allegheny County Economic Development
One Chatham Center, Suite 900
112 Washington Place
Pittsburgh, PA 15219

Dear Ms. Ogoreuc,

The Ohio River Greenway Trail is part of Active Allegheny, the county's comprehensive commuter bike, pedestrian, and complete streets plan. The implementation of the Ohio River Trail Council's Ohio River Greenway Trail and Airport Connector benefits adjoining trail projects, which are identified as priority projects within Allegheny County's Comprehensive Plan, Allegheny Places. The Ohio River Trail will connect important riverfront municipalities to the County's Sports Legacy Project, which is located in three of Allegheny County's municipalities (the Borough of Coraopolis and the Townships of Moon and Robinson). In addition, the trail system will connect to the Montour Trail, a segment of the Great Allegheny Passage. Furthermore, Allegheny County and Friends of the Riverfront are constructing the extension of the Three Rivers Heritage Trail from the City of Pittsburgh to the Sports Legacy Project. This extension and link to the Ohio River Greenway Trail Airport Connector provides the shortest and fastest route to downtown Pittsburgh (21.4-miles).

The Ohio River Trail Council firmly believes that trails and greenway development supports the quality of life and economic development of the Pittsburgh region. Thus, the Ohio River Trail Council is providing all matching funds required for the Active Allegheny Grant Program application. We look forward to the implementation of this important connecting segment of our trail system.

Respectfully submitted,

Vincent Troia

RE: Ohio River Trail Council (ORTC)
Design Proposal for the Ohio River Trail
Airport Connector and Crescent Borough
Extension
Allegheny and Beaver County
Mackin Project PIN 17-108

Dear Dr. Troia,

As requested, find below a scope and a budget to complete design for an on-road bicycle route. As understood, this is an enhancement to the current roadway system to better accommodate on-road bicycle access and wayfinding, to provide a bike route connection between the Ohio River Greenway Trail, Crescent Borough, Findlay and Moon Townships, and the Pittsburgh International Airport.

Mackin Engineering Company is pleased to present this proposal to the Ohio River Trail Council to complete a submission package to PennDOT District 11-0 for the on-road bicycle route. It is our understanding that route mapping and quantitative data is for submission to PennDOT District 11-0 for review and approval of a bicycle route enhancement project.

The bicycle route will review approximately 9-miles of roadway and provide signing and pavement marking recommendations to improve wayfinding and safety for bicyclists, and increase the awareness of the cycling route to the motorist. Depending on the findings, the project may also recommend and quantify improvements to roadway surfaces, shoulders, and drain inlets.

The project will investigate on-road routes along state, county, airport authority and local roads to find the most suited, safest and most direct connection for cyclists. The anticipated route includes State Route 51 from the Sewickley Bridge west towards Stoops Ferry Road; Stoops Ferry Road, Flaugherty Run Road, Extension along SR 51 to Route 151,

Clinton Road, to Airport Authority Access Roadway and the Montour Trail Connector Route into the Airport.

The scope of work includes the following meetings:

- Meet with PennDOT District 11-0 Ped-Bike Coordinator
- Up to two (2) community meetings with stakeholders and the public
- Meet with the Airport Authority

The ORTC is to make arrangements for the airport authority and the public/stakeholder meetings.

Deliverables will include route mapping, a letter report, a sign and pavement marking tabulation chart, standards for sign installation, recommended improvements to intersections and shoulders, example graphics, and an estimate of costs for construction. A set of draft plans will be reviewed with the ORTC and then edited for final review and submission to PennDOT. When complete, five hard copy sets of deliverables and one digital set will be provided to the ORTC for reproduction and distribution.

The design schedule is anticipated to be completed in 6-8 months, depending on agency time for permit review and approval. The project can be completed for a budgeted cost of \$48,800.

Please give me a call if you have questions or wish to discuss the proposal. If you are in agreement with the scope and cost, please contact our office and we will submit a contract agreement for signature.

Thank you for your consideration of our firm.

Sincerely,

MACKIN ENGINEERING COMPANY

ALLEGHENY COUNTY AIRPORT

May 12, 2017

Ann Ogoreuc, AICP
Manager, Transportation Initiatives
Allegheny County Economic Development
One Chatham Center, Suite 900
112 Washington Place
Pittsburgh, PA 15219

Dear Ms. Ogoreuc,

I am writing you to express the support of the Airport Authority of Allegheny County for the Ohio River Trail Council's Ohio River Greenway Trail Airport Connector Initiative, which would increase motorists, cyclist, and pedestrian safety and usability of 9-miles of existing on-street bicycle routes and paved roads in Findlay, Crescent, and Moon Townships that presently serve as an informal connection between the Montour Trail Airport Connector and the Ohio River Greenway Trail in Coraopolis. The Airport Authority also supports the current proposal to the Active Allegheny Grant Program for this initiative to receive \$50,000 towards the engineering and design of these needed enhancements.

The Pittsburgh International Airport is proud to be able to offer a direct connection for travelers flying in to bike on the Montour Trail to the Great Allegheny Passage, directly from the airport. The airport has made investments in our facilities to encourage this kind of multi-modal accessibility, such as by installing a bicycle assembly area complete to necessary tools in our Baggage Claim. The implementation of this segment will benefit adjoining trail projects which are identified as priority projects within Allegheny County's Comprehensive Plan, Allegheny Places, and only further increase the feasibility and appeal of direct connections for cyclists and other trail users to the Pittsburgh International Airport.

Trail and greenway development has been proven to promote quality of life and economic development in their vicinity. The Ohio River Trail is part of the recommendations of Active Allegheny, the county's comprehensive commuter bike, pedestrian, and complete streets plan. I look forward to the further development of the Ohio River Greenway Trail Airport Connector as a component of our overall trail system in Allegheny County and beyond.

Sincerely,

Vincent J. Gastgeb

Vincent J Gastgeb
Vice-President – Government & Community Affairs
Allegheny County Airport Authority

May 8, 2017

Ann Ogoreuc, AICP
Manager, Transportation Initiatives
Allegheny County Economic Development
One Chatham Center, Suite 900
112 Washington Place
Pittsburgh, PA 15219

Dear Ms. Ogoreuc:

I am writing this letter in support of the Ohio River Trail Council's Ohio River Greenway Trail Airport Connector Initiative which uses 6.7-miles of existing bicycle routes and paved roads: 2.2-miles of Bike PA Route A/State Route 51 (Share-the-Road), 3.8-miles of Flaugherty Run/State Route 3089 (Share-the-Road), and 0.7-miles of Clinton Road.

The implementation of this segment will benefit adjoining trail projects which are identified as priority projects within Allegheny County's Comprehensive Plan, Allegheny Places. The Ohio River Trail will connect important riverfront municipalities to the County's Sports Legacy Project, which is located in three of Allegheny County's municipalities (the Borough of Coraopolis and the Townships of Moon and Robinson). And at that juncture, the trail system will connect to the Montour Trail, a segment of the Great Allegheny Passage.

Furthermore, Allegheny County and Friends of the Riverfront are engaged in the process of constructing the extension of the Three Rivers Heritage Trail from the City of Pittsburgh to the Sports Legacy Project. This extension and link to the Ohio River Greenway Trail Airport Connector provides the shortest and fastest route to downtown Pittsburgh (21.4-miles) from the Airport, whereas the Montour Trail Airport connector route to Point State Park is 26.7-miles.

The Ohio River Trail is part of the recommendations of Active Allegheny, the county's comprehensive commuter bike, pedestrian, and complete streets plan. Trail and greenway development supports quality of life and economic development activities.

I look forward to the implementation of an important connecting segment of our trail system.

Very truly yours,

A handwritten signature in black ink, appearing to read "Lynn L. Manion", with a long, sweeping horizontal line extending to the right.

Lynn L. Manion
Executive Director

MOON TOWNSHIP

ALLEGHENY, COUNTY - PENNSYLVANIA

May 10, 2017

Ann Ogoreuc, AICP
Manager, Transportation Initiatives Allegheny
County Economic Development One Chatham
Center, Suite 900
112 Washington Place
Pittsburgh, PA 15219

Dear Ms. Ogoreuc,

Moon Township strongly supports the Ohio River Trail Council's Ohio River Greenway Trail Airport Connector Initiative which utilizes 6.7-miles of existing bicycle routes and paved roads: 2.2-miles of Bike PA Route A/State Route 51 (Share-the-Road), 3.8-miles of Flaugherty Run/State Route 3089 (Share-the-Road), and 0.7-miles of Clinton Road.

The implementation of this segment will benefit adjoining trail projects which are identified as priority projects within Allegheny County's Comprehensive Plan, Allegheny Places. The Ohio River Trail will connect important riverfront municipalities (including Moon Township) to the County's Sports Legacy Project, which is located in three of Allegheny County's municipalities (the Borough of Coraopolis and the Townships of Moon and Robinson). At the Montour Trail junction, the trail system will connect to the Montour Trail, a segment of the Great Allegheny Passage.

Furthermore, Allegheny County and Friends of the Riverfront are engaged in the process of constructing the extension of the Three Rivers Heritage Trail from the City of Pittsburgh to the Sports Legacy Project. This extension and link to the Ohio River Greenway Trail Airport Connector provides the shortest and fastest route to downtown Pittsburgh (21.4-miles) from the Airport, whereas the Montour Trail Airport connector route to Point State Park is 26.7-miles.

Moon Township is actively assisting the Ohio River Trail connections with its development of Riverfront Park as a trail head for the trail system. We are also working with PennDOT to improve the intersection at SR 51/Flaugherty Run Road/McGovern Road to make it safer for vehicles, bicycles, and pedestrians. The proposed improvements include an additional bridge lane and a traffic signal.

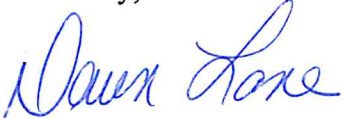

The Ohio River Trail is part of the recommendations of Active Allegheny, the county's comprehensive commuter bike, pedestrian, and complete streets plan. Trail and greenway development supports quality of life and economic development activities. We look forward to the implementation of an important connecting segment of the regional trail

Ms. Ann Ogoreuc

Dear Ms. Ogoreuc,

I am writing you in support of the Ohio River Trail Council's grant application to the Active Allegheny Grant Program administered by the Redevelopment Authority of Allegheny County (RAAC). The Ohio River Trail Council is applying for financial assistance for the Ohio River Greenway Trail Airport Connector Initiative.

Specifically, Ohio River Trail Council plans to use the grant funds to construct a trail that will connect important riverfront municipalities to the County's Sports Legacy Project, which is located in Moon Twp, Coraopolis, and Robinson. The project will utilize 6.7-miles of existing bicycle route and paved roads: 2.2-miles of Bike PA Route A/State Route 51 (Share-the Road), 3.8-miles of Flaugherty Run/State Route 3089 (Share-the-Road), and 0.7-miles of Clinton Road. Additionally, the Airport Connector Trail will connect with the Three Rivers Heritage Trail at the Sports Legacy Project which will provide the shortest and fastest route to downtown Pittsburgh from the Airport at just 21.4 miles. The Ohio River Trail is part of the recommendations of Active Allegheny, the county's comprehensive commuter bike, pedestrian, and complete streets plan.

Thank you in advance for your consideration of this application. If I may provide any additional information on this project, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Guy Reschenhaler'.

Guy Reschenhaler
State Senator-37th District

SUSTAINABLE PITTSBURGH

307 Fourth Avenue, Suite 1500 · Pittsburgh, PA 15222

May 11, 2017

Ms. Ann Ogoreuc, AICP
Manager, Transportation Initiatives
Allegheny County Economic Development
One Chatham Center, Suite 900
112 Washington Place
Pittsburgh, PA 15219

Dear Ms. Ogoreuc:

On behalf of Sustainable Pittsburgh, this letter is to express our enthusiastic support of the Ohio River Trail Council's Ohio River Greenway Trail Airport Connector Initiative. This project complements and benefits adjoining trail projects that are identified as priority projects within "Allegheny Places", Allegheny County's Comprehensive Plan.

The Ohio River Trail will connect important riverfront municipalities to the County's Sports Legacy Project, which is located in three of Allegheny County's municipalities (the Borough of Coraopolis and the Townships of Moon and Robinson). At that juncture, the trail system will connect to the Montour Trail, a segment of the Great Allegheny Passage.

Allegheny County and Friends of the Riverfront are engaged in the process of constructing the extension of the Three Rivers Heritage Trail from the City of Pittsburgh to the Sports Legacy Project. This extension and link to the Ohio River Greenway Trail Airport Connector provides the shortest and fastest route to downtown Pittsburgh (21.4-miles) from the Airport, whereas the Montour Trail Airport connector route to Point State Park is 26.7-miles.

Sustainable Pittsburgh, a nonprofit that works to accelerate the policy and practice of sustainability in the region, has a long history of fostering partnerships and advocating for equitable mobility and outdoor recreation opportunities. Indeed, these are key components to southwestern Pennsylvania's sustainable development and help generate growth in economic activity. Activating multiple modes of transportation through corridors such as the Ohio River provides access to jobs, recreation, and healthier lifestyles.

The Ohio River Trail is part of the recommendations of Active Allegheny, the county's comprehensive commuter bike, pedestrian, and complete streets plan. We look forward to the implementation of this important connecting segment of our trail system.

Sincerely,

Court Gould
Executive Director
Sustainable Pittsburgh

Pittsburgh, PA 15219

Dear Ms. Ogoreuc,

Rivers of Steel Heritage Corporation, managers of the Rivers of Steel National Heritage Area, strongly supports the application of the Ohio River Trail Council's Ohio River Greenway Trail Airport Connector Initiative.

The continued development of trails in Pittsburgh and southwestern Pennsylvania have contributed to the benefit of quality of life and community revitalization in southwestern Pennsylvania's towns and municipalities. With each developed trail and bike path comes improved health opportunities for community residents along with the added bonus of economic development with increased visitors and tourists. These amenities have added benefit in that they help develop of broader transportation infrastructure in our region with the potential to reduce highway traffic congestion, reductions in air pollution, and greater connectivity of a region.

The implementation of this segment of the Ohio River Trail will benefit adjoining trail projects which are identified as priority projects within Allegheny County's Comprehensive Plan, Allegheny Places. The Ohio River Trail will connect important riverfront municipalities to the County's Sports Legacy Project, and with the Montour Trail, a segment of the Great Allegheny Passage. Furthermore, Allegheny County and Friends of the Riverfront are engaged in the process of constructing the extension of the Three Rivers Heritage Trail from the City of Pittsburgh to the Sports Legacy Project. This extension and link to the Ohio River Greenway Trail Airport Connector provides the shortest and fastest route to downtown Pittsburgh, and alternative route to the Montour Trail Airport connector route.

Thank you for your consideration of this letter of support and the application of the Ohio River Trail Council.

Sincerely,

RIVERS OF STEEL HERITAGE CORPORATION

OHIO RIVER TRAIL COUNCIL

OHIO RIVER GREENWAY TRAIL AIRPORT CONNECTOR MAY 14, 2017

DR. VINCENT TROIA, PRESIDENT & CEO

OHIO RIVER TRAIL COUNCIL

1100 PENNSYLVANIA AV, MONACA, PA 15061

PHONE: 724.728.2625

Ohio River Greenway Trail Airport Connector Proposal

The Ohio River Trail Council (ORTC) was formed several years ago and began to undertake various planning and community revitalization related initiatives along the Ohio River Corridor. The project has been identified through a Pennsylvania Department of Conservation and Natural Resources grant funded Ohio River Trail Feasibility Study as part of a 40+ mile bicycle/pedestrian trail along the Ohio River, closely paralleling PA Route 51 (a major north/south highway and PennDOT Designated PA Bicycle Route A) to the Ohio/Pennsylvania State Line.

This key project within the overall Ohio River Trail Corridor consists of off-road and on-road bicycle and pedestrian facilities linking the existing 46-mile Montour Trail to the Ohio River, through a pending 78 acre Allegheny County Sport and Athletic Complex located on a former railyard, through the downtown Coraopolis commercial corridor, to a proposed transit center through to a planned Ohio River Waterfront park and the Sewickley Bridge in Moon Township.

The project consists of transportation improvements that will form a continuous urban multi-modal route/trail and helps to develop a linking system of safe and aesthetic walkable and bikeable communities.

The project has been identified to specifically improve the efficiency of the existing transportation system incorporating PennDOT Designated PA Bicycle Route A; enhance multi-modal choices including bike/ped and support transit access; support private sector reinvestment and development patterns and create a cohesive green corridor along existing PA Route 51.

The Ohio River Trail Council (ORTC) works to bring individuals, groups, communities, businesses, and all levels of government together to honor our past and build a "path" to our future by providing active transportation networks, brownfield remediation, economic development, environmental stewardship, heritage preservation, land conservation and recreation opportunities.

One of the major outcomes of the Ohio River Greenway project is to foster recreation and cultural-based economic development, capitalize on the synergy of ecotourism and the potential development of a larger recreation and parks system as a way to reposition all the evolved ORTC communities for the 21st century business and lifestyle needs.

The goal of the ORTC partner communities within the Ohio River Trail Corridor is to enhance and further develop recreational opportunities by linking existing and proposed pedestrian, bicycle, recreation, open space and transportation facilities while protecting environmental and cultural resources and improving public access to the river's edge.

The goal of all of the communities within the Ohio River Corridor is to create a more livable environment that expands the economic potential for each and a healthy, high quality-of-life for their residents. The river is the biggest asset, and the trail will capitalize on it. The regional approach develops sound and sustainable transportation infrastructure linked to site-specific economic development. This project will achieve real and measureable environmental, economic and quality-of-life improvements in the project area, as well as establishing a model transportation project for all of the 30 ORTC communities within the Ohio River Corridor.

This project is in line with state and regional plans. The "2040 Transportation and Development Plan for Southwestern PA" calls for the provision of transportation options and the connection of existing regional trail assets to additional communities through the establishment of expanded trail networks. The "PA Statewide Outdoor Recreation Plan (2009-2013)" recommends the promotion of green and walkable communities

The Ohio River Trail Council continues to make great strides in Allegheny County, as Phase I of the Ohio River Greenway Trail proceeds with the installation of cycling infrastructure improvements along Fifth Ave and Fourth Ave in Coraopolis.

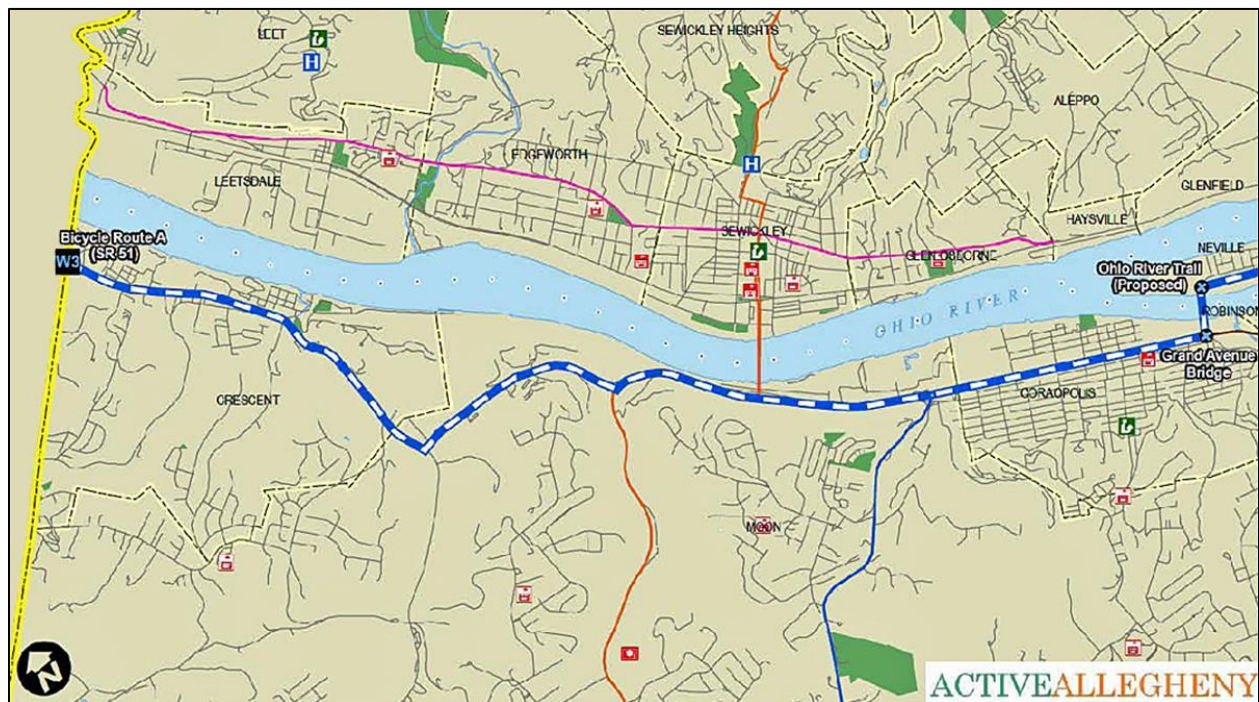

The [Ohio River Greenway Trail – Phase I project](#) is an exciting transportation prospect in that it connects two wonderful recreational projects, the seventy-eight

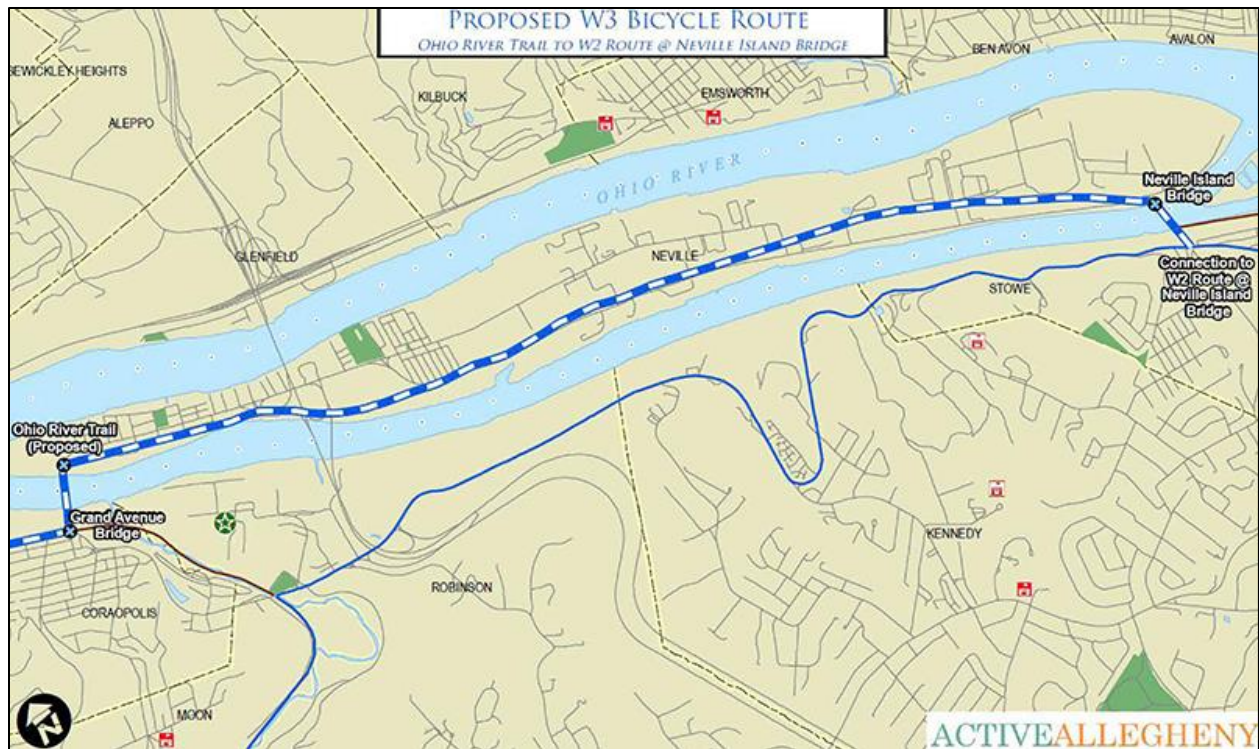

(78) acre Allegheny County Sports & Athletic Complex at Coraopolis and the planned Moon Township Waterfront Park.

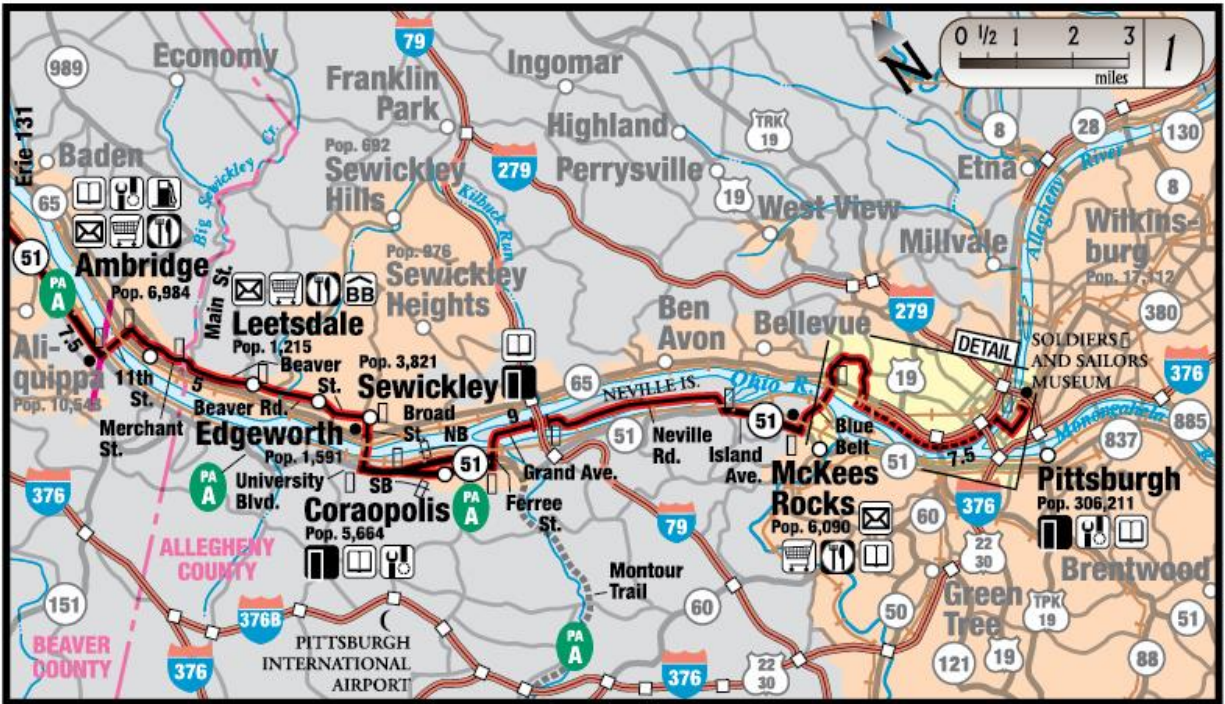

Additional Phase I work includes the off-road portion of the trail in Moon Township, which is presently in the design phase from Thorn Run to Ambulance Way. The Phase I project is funded through TCSP and GTRP grants awarded to Coraopolis, Pa.

The Ohio River Greenway Trail [North Shore Connector Study](#) Phase II was completed in November of 2015 and identified a series of proposed recommendations to create a trail which links the communities of Glen Osborne, Sewickley, Edgeworth, and Leetsdale to Phase I via the Sewickley Bridge.

The safest bicycle route was determined and the Ohio River Greenway Bike Route directional signage installation is in progress. These projects follow the Active Allegheny proposed W3 Bicycle Routes, as well as the existing [Bicycle PA Route A](#) (State Route 51) and the University of Pittsburgh's Center for Minority Health [Underground Railroad Bicycle Route](#), Pittsburgh Spur.

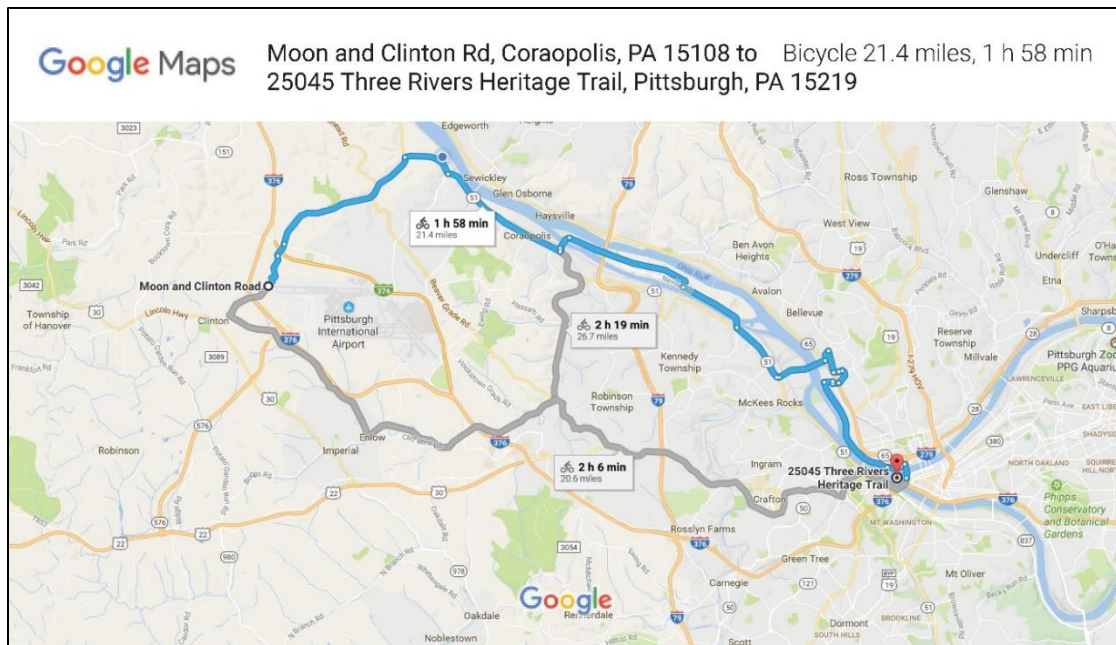

The Ohio River Trail Council goal is to continue to show on-the-ground successes by progressing to the Phase I engineering, design, and safety enhancements at the Sewickley Bridge – State Route 51 intersection in Moon Township, where 17-year old Emily Jancart of Coraopolis was killed riding her bicycle. Furthermore, by establishing the Ohio River Greenway Trail Airport Connector to Findlay Township utilizing 6.7-miles of existing bicycle routes and paved roads: 2.2-miles of Bike PA Route A/State Route 51 (Share-the-Road), 3.8-miles of Flaugherty Run/State Route 3089 (Share-the-Road), and 0.7-miles of Clinton Road where the planned bike route links to a 6.3-mile segment of the Montour Trail.

This non-motorized connection to Pittsburgh Airport will open up a world of opportunity for the regional trails north and west of Pittsburgh and in Ohio and West Virginia by expanding its reach to national and international air traffic as well as providing both a recreational outlet and an efficient pathway for commuters. The Ohio River Greenway Trail Airport Connector provides the shortest and fastest alternate route to Point State Park and downtown Pittsburgh (21.4-miles), whereas the Montour Trail Airport connector route is 26.7-miles.

The Ohio River Trail Council is a member of the Industrial Heartland Trails Coalition (I Heart Trails, for short), which is collaborating to complete and connect a system of 1,400+ miles of shared use trails. The goal is to connect the trail network so that local and visiting trail users can walk and bike from trail to trail, city to city, and town to town. The system is 48% complete, linking 48 counties and four states creating a premiere trail destination. The IHTC envisions a network of trails that stretch from the shores of Lake Erie to the confluence of Three Rivers in Pittsburgh and on to the Ohio River in the Appalachian foothills of West Virginia. The connected trail system will allow locals and visitors to explore the small towns, major cities, historic sites, rivers and mountains that characterize America's first frontier.

The Ohio River Greenway Airport Connector, which is part of the Industrial Heartland Trails, is a project that spans 9-miles and includes the Allegheny County municipalities of Crescent Township (2.1-miles), Findlay Township (1.6-miles), and Moon Township (5.3-miles). The continued development of trails in Pittsburgh and southwestern Pennsylvania have contributed to the benefit of quality of life and community revitalization in Pennsylvania's towns and municipalities. With each developed trail and bike route comes improved health opportunities for community residents along with the added bonus of economic development with increased visitors and tourists. These amenities have added benefit in that they help develop of broader transportation infrastructure in our region with the potential to reduce highway traffic congestion, reductions in air pollution, and greater connectivity of a region.

The Ohio River Trail Council is asking for your support to submit an Active Allegheny Grant Program (AAGP) application for \$50,000. The involved communities may request funding to create bicycle and pedestrian transportation plans, develop designs for specific bicycle and pedestrian transportation improvements, or conduct activities related to promoting walking and bicycling as modes of transportation and physical activity.

Funding recipients will also receive assistance on the types of funding that can be sought for subsequent phases of project implementation. Multi-municipal applications are allowed and strongly encouraged.

Matching funds in cash must be obtained or committed at the time of submittal of the application. Municipalities participating in a multi-municipal project may have different match requirements and must decide amongst themselves how to apportion the match.

The Ohio River Trail Council will provide the full cash match requirement, however, the application submitted may be considered stronger if the other stakeholders participate in the match. Only one grant application will be considered per municipality, including joint applications. Applications are due no later than 4:00 p.m. on Friday, May 19, 2017.

Stakeholders include the Airport Corridor Transportation Association, Allegheny County Airport Authority, Crescent Township, Findlay Township, Industrial Heartland Trails Coalition, Moon Township, Ohio River Trail Council, PennDOT, Pennsylvania Environmental Council, Rivers of Steel, Sustainable Pittsburgh, Regional Transportation Alliance of SWPA, and the Southwest Pennsylvania Commission.

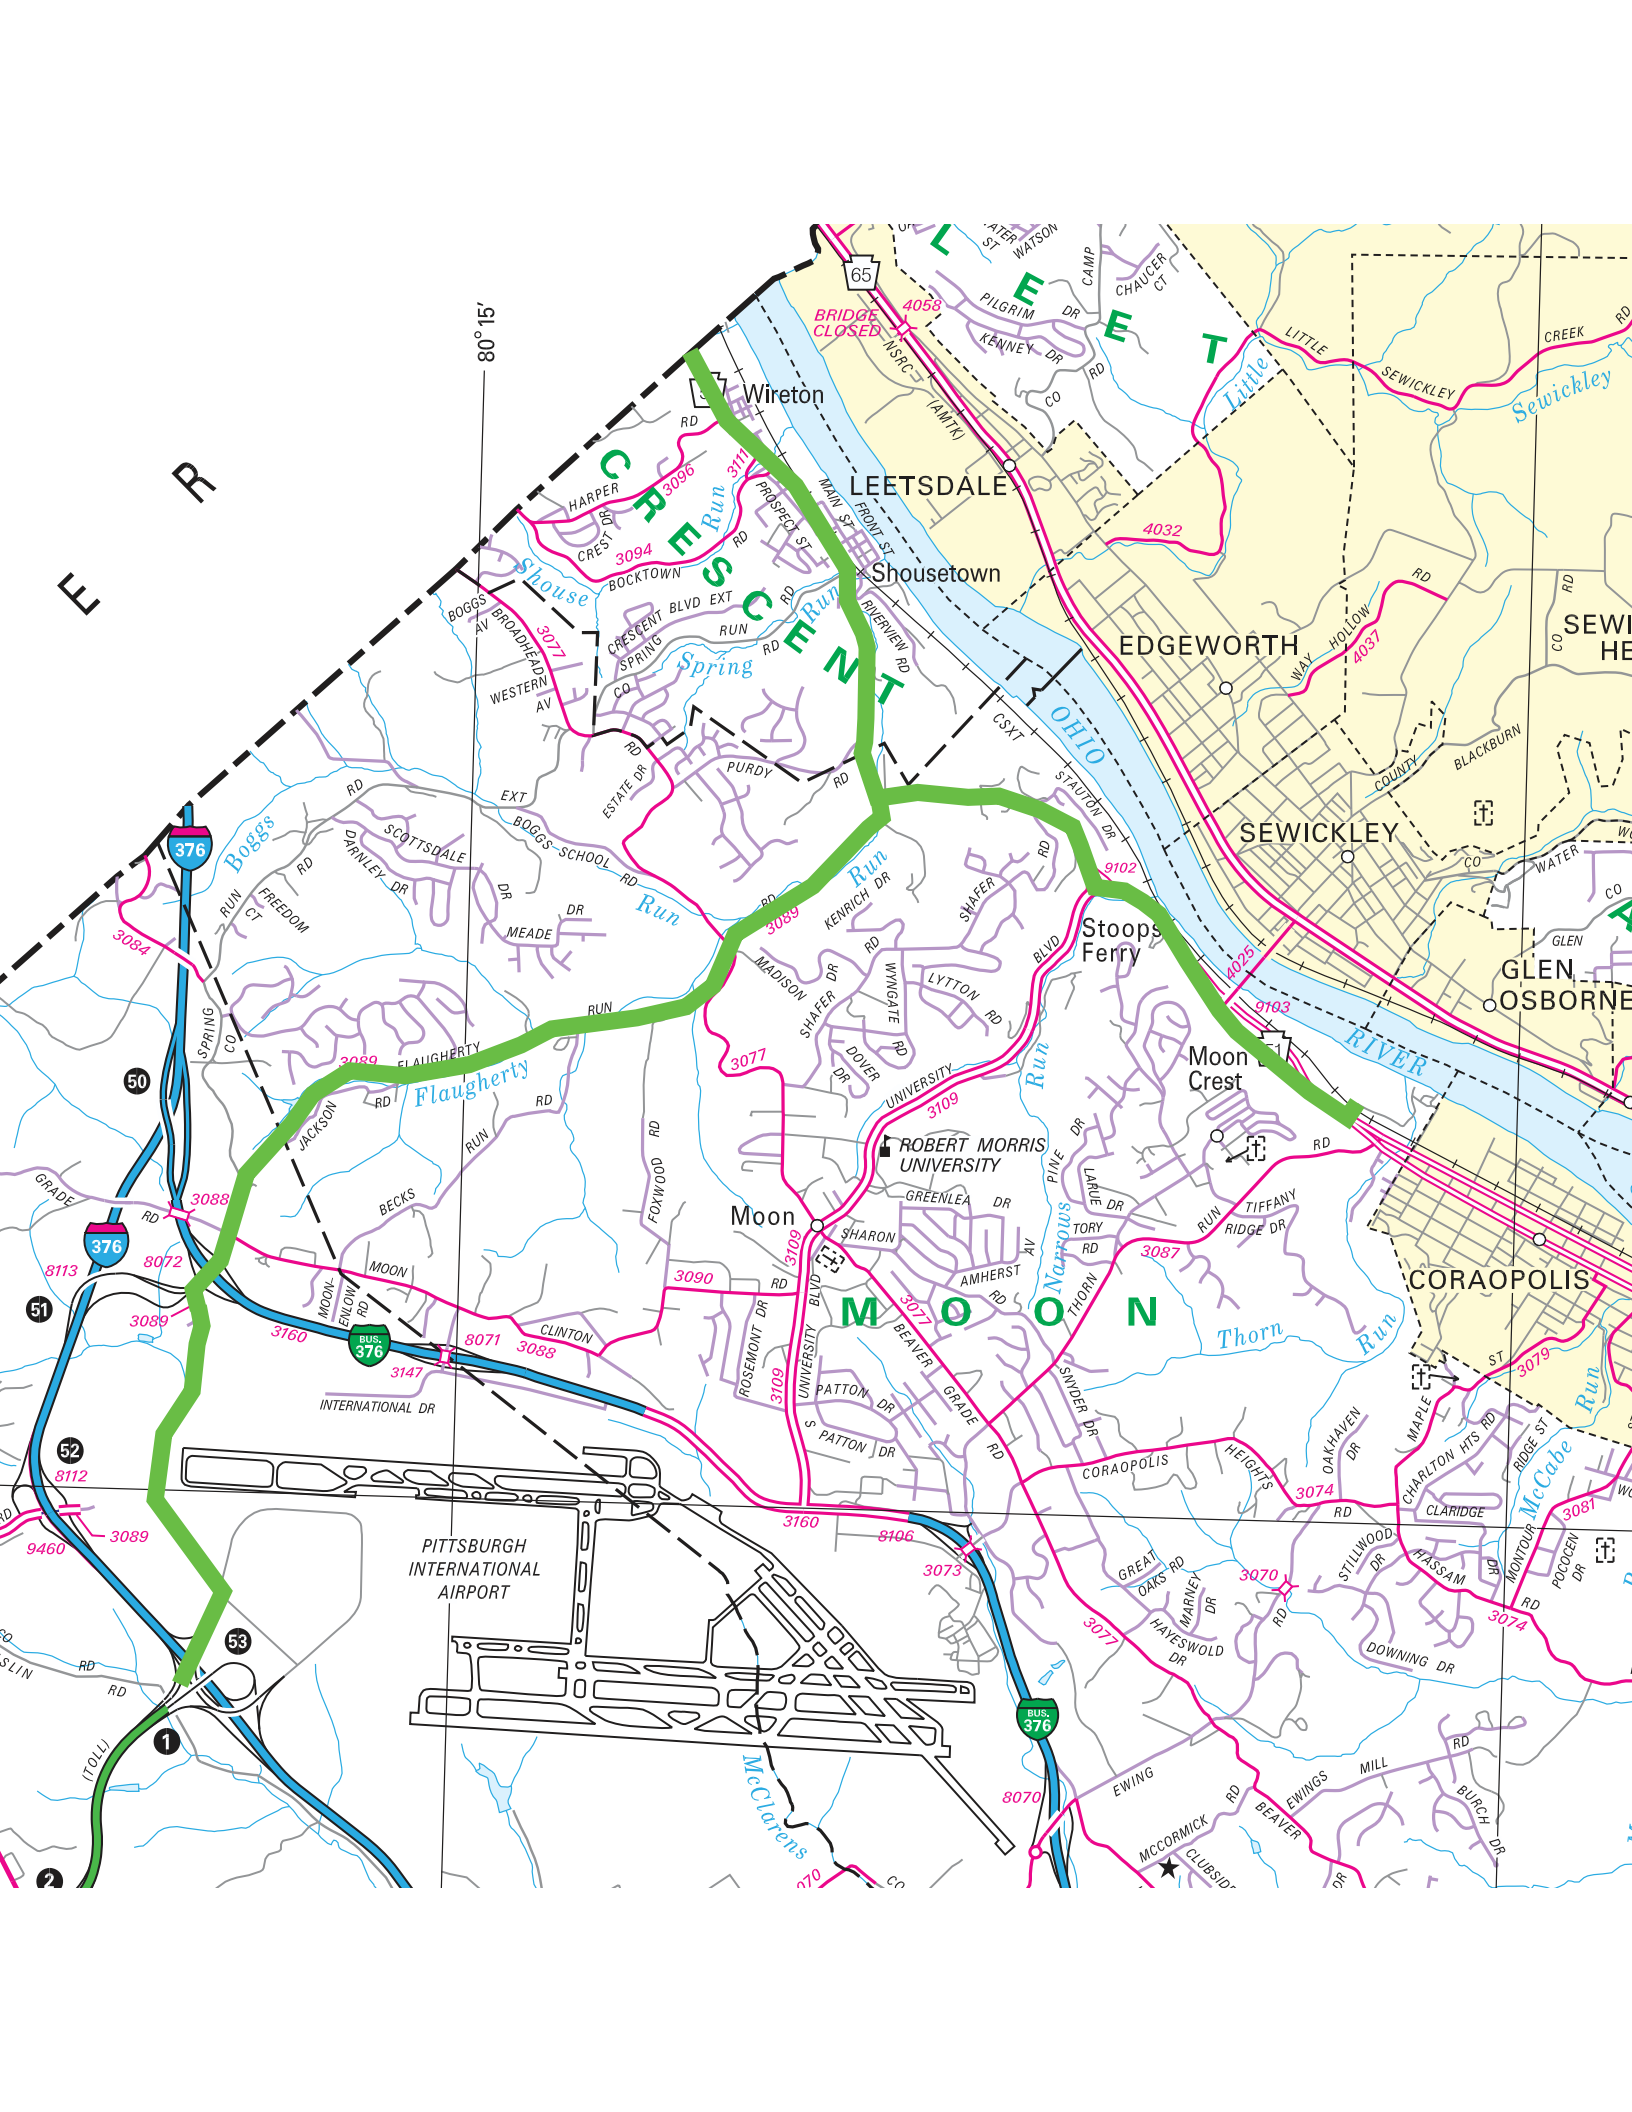

Please support the Ohio River Trail Council mission to honor our past and build a "path" to our future by providing recreation opportunities, environmental stewardship, heritage development, safe transportation networks, and economic stimulus to our region.

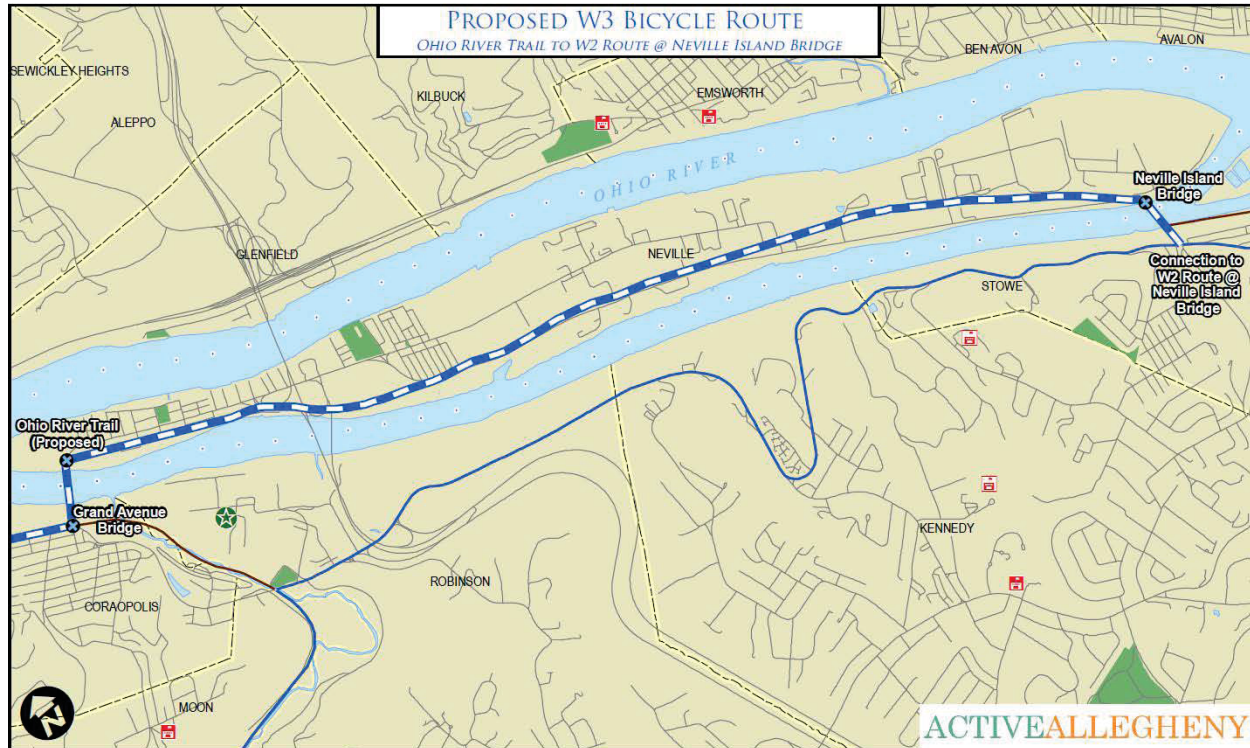

Feel free to call or email me with any questions. The Ohio River Trail Council office phone number is 724.728.2625. My personal cell phone is 724.462.3183 and email is drvtroua@ohiorivertrail.org.

Sincerely,

Dr. Vincent Troia, President
