

OHIO RIVER TRAIL COUNCIL

OHIO RIVER GREENWAY TRAIL AIRPORT CONNECTOR APRIL 28, 2017

DR. VINCENT TROIA, PRESIDENT & CEO

OHIO RIVER TRAIL COUNCIL

1100 PENNSYLVANIA AV, MONACA, PA 15061

PHONE: 724.728.2625

Ohio River Greenway Trail Airport Connector Proposal

The Ohio River Trail Council (ORTC) was formed several years ago and began to undertake various planning and community revitalization related initiatives along the Ohio River Corridor. The Ohio River Trail Council continues to make great strides in Allegheny County, as Phase I of the Ohio River Greenway Trail proceeds with the installation of cycling infrastructure improvements along Fifth Ave and Fourth Ave in Coraopolis.

The [Ohio River Greenway Trail – Phase I project](#) is an exciting transportation prospect in that it connects two wonderful recreational projects, the seventy-eight (78) acre Allegheny County Sports & Athletic Complex at Coraopolis and the planned Moon Township Waterfront Park.

Additional Phase I work includes the off-road portion of the trail in Moon Township, which is presently in the design phase from Thorn Run to Ambulance Way. The Phase I project was funded through grants awarded to Coraopolis, Pa.

The Ohio River Greenway Trail [North Shore Connector Study](#) Phase II was completed in November of 2015 and identified a series of proposed recommendations to create a trail which links the communities of Glen Osborne, Sewickley, Edgeworth, and Leetsdale to Phase I via the Sewickley Bridge.

The safest bicycle route was determined and the Ohio River Greenway Bike Route directional signage installation is in progress. These projects follow the Active Allegheny proposed W3 Bicycle Routes, as well as the existing [Bicycle PA Route A](#) (State Route 51) and the University of Pittsburgh's Center for Minority Health [Underground Railroad Bicycle Route](#), Pittsburgh Spur.

The Ohio River Trail Council goal is to continue to show on-the-ground successes by progressing to the Phase I engineering, design, and safety enhancements at the Sewickley Bridge – State Route 51 intersection in Moon Township, where 17-year-old Emily Jancart of Coraopolis was killed riding her bicycle. Furthermore, by establishing the Ohio River Greenway Trail Airport Connector to Findlay Township utilizing 6.7-miles of existing bicycle routes and paved roads: 2.2-miles of Bike PA Route A/Route 51 (Share-the-Road), 3.8-miles of Flaugherty Run (Share-the-Road), and 0.7-miles of Clinton Road. This non-motorized connection to Pittsburgh Airport will open up a world of opportunity for the regional trails north and west of Pittsburgh and in Ohio and West Virginia by expanding its reach to national and international air traffic as well as providing both a recreational outlet and an efficient pathway for commuters. The Ohio River Greenway Trail Airport Connector provides the shortest and fastest route to downtown Pittsburgh (21.4-miles), whereas the Montour Trail Airport connector route to Point State Park is 26.7-miles.

The Ohio River Trail Council is asking for your support to submit an Active Allegheny Grant Program (AAGP) application for \$50,000. The involved communities may request funding to create bicycle and pedestrian transportation plans, develop designs for specific bicycle and pedestrian transportation improvements, or conduct activities related to promoting walking and bicycling as modes of transportation and physical activity.

Funding recipients will also receive assistance on the types of funding that can be sought for subsequent phases of project implementation. Multi-municipal applications are allowed and strongly encouraged.

Matching funds in cash must be obtained or committed at the time of submittal of the application. Municipalities participating in a multi-municipal project may have different match requirements and must decide amongst themselves how to apportion the match. The Ohio River Trail Council will provide the full cash match requirement, however, the application submitted may be considered stronger if the other stakeholders participate in the match. Only one grant application will be considered per municipality, including joint applications. Applications are due no later than 4:00 p.m. on Friday, May 19, 2017.

Stakeholders include the Airport Corridor Transportation Association, Allegheny County, Allegheny County Airport Authority, Crescent Township, Findlay Township, Moon Township, Ohio River Trail Council, PennDOT, and the Montour Trail Council since the planned bike route links to a 6.3-mile segment of the Montour Trail.

Please support the Ohio River Trail Council mission to honor our past and build a "path" to our future by providing recreation opportunities, environmental stewardship, heritage development, safe transportation networks, and economic stimulus to our region.

Feel free to call or email me with any questions. The Ohio River Trail Council office phone number is 724.728.2625. My personal cell phone is 724.462.3183 and email is drvtroia@ohiorivertrail.org.

Sincerely,

Dr. Vincent Troia, President
Ohio River Trail Council

Re: Active Allegheny Grant Program

Dear Planning Partner:

The Redevelopment Authority of Allegheny County (RAAC), in partnership with the Allegheny County Health Department (ACHD), is pleased to announce the availability of funding through the **Active Allegheny Grant Program (AAGP)**. This grant program, in its second year, offers support for the implementation of active transportation projects throughout Allegheny County. Thanks to a generous contribution from the Richard King Mellon Foundation, communities may request funding to create bicycle and pedestrian transportation plans, develop designs for specific bicycle and pedestrian transportation improvements, or conduct activities related to promoting walking and bicycling as modes of transportation and physical activity. Funding recipients will also receive assistance on the types of funding that can be sought for subsequent phases of project implementation, if necessary.

RAAC and ACHD are excited about the AAGP because it promotes the implementation of two important County plans – *Active Allegheny*, the County's active transportation plan, and *Plan for a Healthier Allegheny*, the recently adopted guide for health improvement in the County. In addition, by increasing opportunities for physical activity, it expands on the efforts of ACHD's *Live Well Allegheny* campaign, which seeks to address major risk behaviors that contribute to chronic disease.

Please read the attached guidelines for a complete description of the program's eligibility prerequisites for applicants and projects, grant requirements, and selection criteria.

NOTE: Applications are due no later than 4:00 p.m. on Friday, May 19, 2017.

If you have any questions regarding the program, please contact Ann Ogoreuc, Manager, Transportation Initiatives, at 412-350-4549 or Ann.Ogoreuc@AlleghenyCounty.US.

Sincerely,

The Redevelopment Authority of Allegheny County
as agent for the County of Allegheny

Robert D. Hurley
Director

Active Allegheny Grant Program

Program Guidelines

Introduction

The Redevelopment Authority of Allegheny County (RAAC), in partnership with the Allegheny County Health Department (ACHD), is pleased to announce that funding is now available through the **Active Allegheny Grant Program (AAGP)**. The purpose of the AAGP is to provide financial assistance to communities to develop plans and design transportation projects that will, when implemented, provide bicycle and pedestrian connections to important local destinations and transportation systems and increase residents' opportunities for physical activity. In addition, a small amount of funding will be available to carry out educational activities, develop stakeholder outreach and materials, and conduct events that promote active transportation. RAAC staff will help grantees assess the appropriateness of different funding programs to obtain funding for subsequent phases of project implementation if necessary.

The AAGP seeks to implement projects that are identified in, or consistent with, *Active Allegheny*, the County's active transportation plan, and the transportation element of *Allegheny Places*, the County's comprehensive plan. In addition, by increasing opportunities for physical activity, the grant program expands the efforts of Allegheny County's *Live Well Allegheny* (LWA) campaign to address major risk behaviors that contribute to chronic disease in Allegheny County. By providing resources for the design and integration of active, safe, and walkable and bikeable spaces into neighborhoods, this effort also implements recommendations identified in *Plan for a Healthier Allegheny*, the recently adopted guide for health improvement in the county.

Eligible Applicants

Applications will be accepted from:

1. Allegheny County municipalities
2. Councils of Government applying on behalf of one or more of its members

Multi-municipal applications are allowed and strongly encouraged. Only one grant application will be considered per municipality, including joint applications.

Eligible Projects

For this cycle of funding, RAAC will consider the following types of projects:

1. **Planning** – Projects that seek to identify the needs of pedestrians and bicyclists and develop recommendations for addressing the needs. Examples of eligible projects include, but are not limited to, the following:
 - Create an active transportation plan to identify needed improvements, policies, and programs related to active transportation modes.
 - Conduct a planning effort to identify alternatives for addressing a specific walking or biking issue.
 - Develop community walking and/or bicycling routes.
 - Conduct a plan to develop a wayfinding system for active transportation modes.
2. **Engineering and Design** – Projects that seek to move a proposed project towards construction implementation. Examples of eligible projects include, but are not limited to, the following:
 - Complete engineering and design work on a pedestrian and/or bicycle improvement recommended in an existing plan (e.g., community comprehensive plan, bicycle and pedestrian plan, corridor plan, etc.).
 - Complete engineering and design work on a specific pedestrian and/or bicycle improvement highlighted in *Active Allegheny* and/or the transportation element of *Allegheny Places*.

Please note: Any design work involving a PennDOT- or County-owned facility must comply with the applicable requirements of the respective agency. Project sponsors **must** coordinate with either agency before submitting the grant application to ensure that the proposed project is allowed.
3. **Events, Education, and Outreach** – Projects and activities that seek to promote healthy living and walking and bicycling as a form of transportation and physical activity. Examples of eligible projects include, but are not limited to, the following:
 - Open streets events
 - Pop up / temporary installations of bike-ped and traffic calming infrastructure
 - Production and/or printing of community walking and biking maps
 - Bike and Walk to School / Work events, bike roadeos, etc.
 - Safe routes to school initiatives

Note: The grant program does not fund the planning and design of amenities and trails in parks.

Match Requirements

The minimum required local match ranges from 0% to 30% as shown in Exhibit 1.

1. If a match is required, it must be in cash (no in-kind services) and cannot be from other county funds.
2. Matching funds must be obtained or committed at the time of submittal of the application.
3. Municipalities participating in a multi-municipal project may have different match requirements. Municipalities must decide amongst themselves how to apportion the match, provided the overall amount of the match is provided.

Maximum Grant Request

1. For planning and engineering projects, the maximum allowable request per applicant, project, or application is \$50,000. RAAC will consider applications that exceed \$50,000 for projects that will significantly improve opportunities for physical activity, connect to major systems, and/or represent multi-municipal efforts.
2. For outreach/education/events projects, the maximum allowable request is \$5,000 for a single application and \$2,500 for each additional community that is part of a joint application up to a maximum award of \$10,000.
3. COGs administering a grant on behalf of a municipality/ies may include a fee not to exceed 2 percent of the grant amount. The administrative fee will be deducted from the total grant award. For example, a \$50,000 grant request less the 2% administration fee (\$1,000) leaves \$49,000 for conducting the work of the project.
4. A list of 2016 AAGP awards is provided in Exhibit 2.

Selection Criteria

The following criteria illustrate how applications will be evaluated for funding:

- **For All Applications:**
 - Is the project consistent with, or recommended in, a local plan such as comprehensive plan or a bicycle and pedestrian plan?
 - Is the project consistent with, or recommended in, *Active Allegheny* or the transportation element of *Allegheny Places*?
 - Does the application demonstrate involvement of local stakeholders such as public safety officials, school district representatives, business owners, municipal staff representing community facilities (e.g., public works, libraries, recreation centers, etc.), and local health and human service agency representatives, among others?
 - Is the estimated cost of the proposed project reasonable and in line with costs for other, similar projects?
 - Is the application complete at the time of submittal to RAAC?
 - What is the timeline for project completion?

- **For Planning Applications:**
 - Does the proposed scope of work include an assessment of pedestrian and bicycle needs?
 - Does the proposed scope of work include an identification of potential connections to existing transportation systems such as sidewalks, transit, and trails and to community destinations such as schools, local businesses, libraries, parks and recreation facilities, grocery stores/markets, medical facilities, and local attractions?
 - Does the proposed scope of work include an identification of proposed projects and policies, a prioritization of projects, a timeline for implementation, preliminary cost estimates for implementation, and an implementation strategy?
- **For Design and Engineering Applications:**
 - Will construction of the proposed design result in increased opportunities for physical activity?
 - Will construction of the project create connections to existing transportation systems such as sidewalks, transit, and trails and to community destinations such as schools, local businesses, libraries, parks and recreation facilities, grocery stores/markets, medical facilities, and other local attractions?
- **For Events, Education, and Outreach activities:**
 - What is the potential reach / target audience for such activities?
 - What are the short- and long-range goals of the activity?
 - Is it part of a larger, on-going initiative?
 - How will the initiative be publicized?

Grant Requirements

- Preparation of plans and designs must be undertaken by a professional planning and/or engineering consultant with the requisite experience.
- RAAC requires project sponsors to conduct a fair and open process for selecting consultants and vendors. At a minimum the following requirements apply:
 - Procurement of all planning and engineering professional services will require a request for proposals (RFPs). RFPs must be sent to at least three firms and at least one Minority, Women, Disadvantaged Business Enterprise or Veteran Owned Small Business (MBE/WBE/DBE/VOSB) entity. Grantees will have a method for conducting technical evaluations of the proposals received and selecting awardees. Awards will be made to the responsible firm whose proposal is most advantageous to the program with price and other factors considered.
 - Grantees with bids requiring small purchases of less than \$10,000 may make a small or negotiated purchase with a local vendor that is most advantageous to the grantee with price and other considerations being factors. Though not required, grantees are encouraged to obtain multiple quotes, including one that is from an MBE/WBE/DBE/VOSB entity. The grantee must document who it contacted and the quote it received.
- A breakdown of the proposed project costs must be provided at a level of detail sufficient to justify the amount of grant funds requested.

- o RAAC reserves the right to request additional information about the estimated costs of a proposed project.
- Resolutions are required to be submitted with the application form. If the project is a multi-municipal application, resolutions must be provided by all municipalities. In addition, if a COG is the applicant, resolutions from all participating municipalities are required. Sample resolutions are provided in the application.
- Program funds are provided on a reimbursement basis. Grantees must submit invoices with proper documentation of expenses in order to be reimbursed.

Contact Information

Questions regarding the grant program can be directed to Ann Ogoreuc at Ann.Ogoreuc@alleghenycounty.us or (412) 350-4549.

Application Deadline

One original grant application and **one** copy along with supporting documentation must be submitted to Allegheny County Economic Development by **Friday, May 19, 2017 at 4:00 p.m.** Please mail or deliver the application to the address below. Applications received by email will not be accepted.

Active Allegheny Grant Program

Application Form

GENERAL INSTRUCTIONS

- Please read the Active Allegheny Grant Program (AAGP) guidelines for program purpose, eligibility, funding, and selection criteria.
- Please complete all applicable sections on the application form. RAAC reserves the right to reject any and all applications that are incomplete at the time of submittal.
- All responses must be typewritten. No handwritten applications will be accepted. To request a digital copy of the application **e-mail Ann Ogoreuc at Ann.Ogoreuc@alleghenycounty.us**.
- **One** original grant application, supporting documentation, and **one** copy should be mailed or delivered to:

Ms. Ann M. Ogoreuc, AICP
Manager, Transportation Initiatives
Allegheny County Economic Development
One Chatham Center, Suite 900
112 Washington Place
Pittsburgh, PA 15219

- Applications must be received in hard copy by the deadline. Applications received by email will not be accepted.
- Applications will be accepted until **4:00 p.m. on Friday, May 19, 2017**. Applications received after the deadline will not be accepted.

Note: Copy this page as needed to provide a complete list of all participating municipalities

Project Description

In this section, please provide a complete description of the proposed project by answering the following questions.

1. Project Description
 - Describe the scope and nature of the proposed project.
 - What is the goal of the project?
 - Describe the reason for undertaking the project at this time.
 - Describe how this project will result in increased opportunities for physical activity and create pedestrian and bicycle connections to existing transportation systems and community destinations?
 - What is the target population of potential beneficiaries of this project?
2. Is the project identified in and/or consistent¹ with a local plan such as comprehensive plan or a local bicycle and pedestrian plan? Please describe the connection.
3. Is the project consistent with, or recommended in, *Active Allegheny* or the transportation element of *Allegheny Places*? Please describe the connection.
4. Describe how citizen participation will be obtained and/or has already been obtained through earlier phases of the project.
5. Describe the stakeholders that will be engaged in the project and/or have already been engaged through earlier phases of the project.
6. Provide a detailed project schedule with a timeline of activities including beginning date, key milestones, and estimated completion date.

¹ Consistency is defined as “an agreement or correspondence between matters being compared which denotes a reasonable, rational, similar, connection or relationship.” (PA Municipalities Planning Code, 2015, page 2)

Project Budget Worksheet: Sources and Status

In addition to providing budget information in the table below, please provide a brief budget narrative, including detailed explanation of additional sources of funding. Expand on budget line items if necessary and explain how estimates were derived.
