Are you looking for a good set of panniers for your commute to the office, your return trip from the supermarket, or your bicycle tour around the world?

The following is a list of all the companies currently making bicycle panniers. If I've missed a company, please leave a comment at the end of this article with the name of the company and a link to the company website... and I'll be sure to add them to the list.

The companies below have been listed in alphabetical order.
