

OHIO RIVER TRAIL FEASIBILITY STUDY

March 10th, 2010

DRAFT VISION STATEMENT AND PROJECT GOALS

Ohio River Trail Vision Statement: The communities of: The City of Aliquippa, Monaca Borough, Center Township, Hopewell Township, South Heights Borough, Crescent Township, Moon Township and Coraopolis Borough will all be interconnected by a contiguous linear trail spine that links these communities with local and regional trail networks.

Project Goals:

Goal #1: Establish the Spine- Establish a dedicated linear trail, paralleling and as closed to the Ohio River as possible, from the existing Montour Trailhead to the Ohio River bridge crossing in Monaca Borough.

Goal#2: Maximize the Overall Potential Community, Transportation and Economic Impact-Design a trail in a manner that best serves the needs of the local residents and the regional user.

Goal #3: Make Physical Progress in Both the Short and Long Terms-Determine the most viable route for a linear trail or network of trail segments that can be implemented within the shortest period of time and identify the preferred ultimate alignment, that can be created over time.

Goal #4: Develop a Bicycle and Pedestrian Friendly Culture Throughout Each of the Communities - Identify a trail feeder system of on-street bicycle and pedestrian connectivity in order to maximize the ability of local residents to access the trail and the riverfront and also provide a means for regional users to reach local businesses, destinations and attractions.

Goal #5: Reconnect the Community to the River's Edge – Utilize the trail as an impetus for a regional greenway network of diverse publicly accessible lands, parks, recreation facilities and historic and cultural activity settings/sites along the Ohio River –i.e. make the Ohio River edge as publicly accessible as possible while balancing the needs for preserving existing and future river dependent industrial economic development.
