FY 2010

FY2010 Funding Guidance for State and Tribal Response Programs

Section 128(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, authorizes a noncompetitive \$50 million grant program to establish and enhance state and tribal response programs. Generally, these response programs address the assessment, cleanup, and redevelopment of brownfields sites and other sites with actual or perceived contamination. Section 128(a) cooperative agreements are awarded and administered by the U.S. Environmental Protection Agency (EPA) regional offices. This document provides guidance that will enable states and tribes to apply for and use Fiscal Year 2010 section 128(a) funds.

FY2010 Brownfields Job Training Grant Guidelines - Request for Proposals

Job Training Grants are funded up to \$200,000 over two years. These Grants bring together community groups, job training organizations, educators, labor groups, investors, lenders, developers, and other affected parties to address the issue of providing environmental employment and training for residents in communities impacted by Brownfields. EPA's Brownfields Program is an organized commitment to help communities revitalize Brownfields properties both environmentally and economically, mitigate potential health risks, and restore economic vitality to areas where Brownfields exist. The proposal deadline is December 1, 2009.
