Project Team - Overview

EPA Brownfields Area Wide Program Parameters

EPA's Priority Performance Goals:

Goal 1: Clean Air and Global Climate Change

Goal 2: Clean and Safe Water

Goal 3: Land Preservation and Restoration

Goal 4: Healthy Communities

Goal 5: Compliance and Environmental Stewardship

Office of Brownfields and Land Revitalization (OBLR) Goals for Program:

- Establishing a “shared vision” for the redevelopment and clean-up of brownfields impacted areas
- Identifying viable reuse strategies for brownfields
- Identifying opportunities to strategically reuse or upgrade “dormant” infrastructure for new investment
- Address environmental justice through urban waterways
- Create a clear roadmap for implementation

Brownfields Basics

What are brownfields?

United States Environmental Protection Agency (EPA) Definition: Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands.

Comparative Planning Scenarios

- Targeting brownfields acts as a strategic approach to achieving goals of a larger planning vision

Monaca & Aliquippa

- Addressing brownfields issues serves as a catalyst for a discussion of larger community planning needs

Midland & Coraopolis

Brownfields Redevelopment Planning

- Market factors versus liability concerns
- Capacity of communities to act as development leaders
- Working with property owners and potential responsible parties (PRPs)
- Funding to support efforts
- Time-Lines

Process Specific Analysis

- What do we plan for? Identifying a viable development program
- Are there “willing parties?”
- Will the environmental factors drive the site design?
- How does the reuse area relate to its context?
- What is the demographic composition of the context?

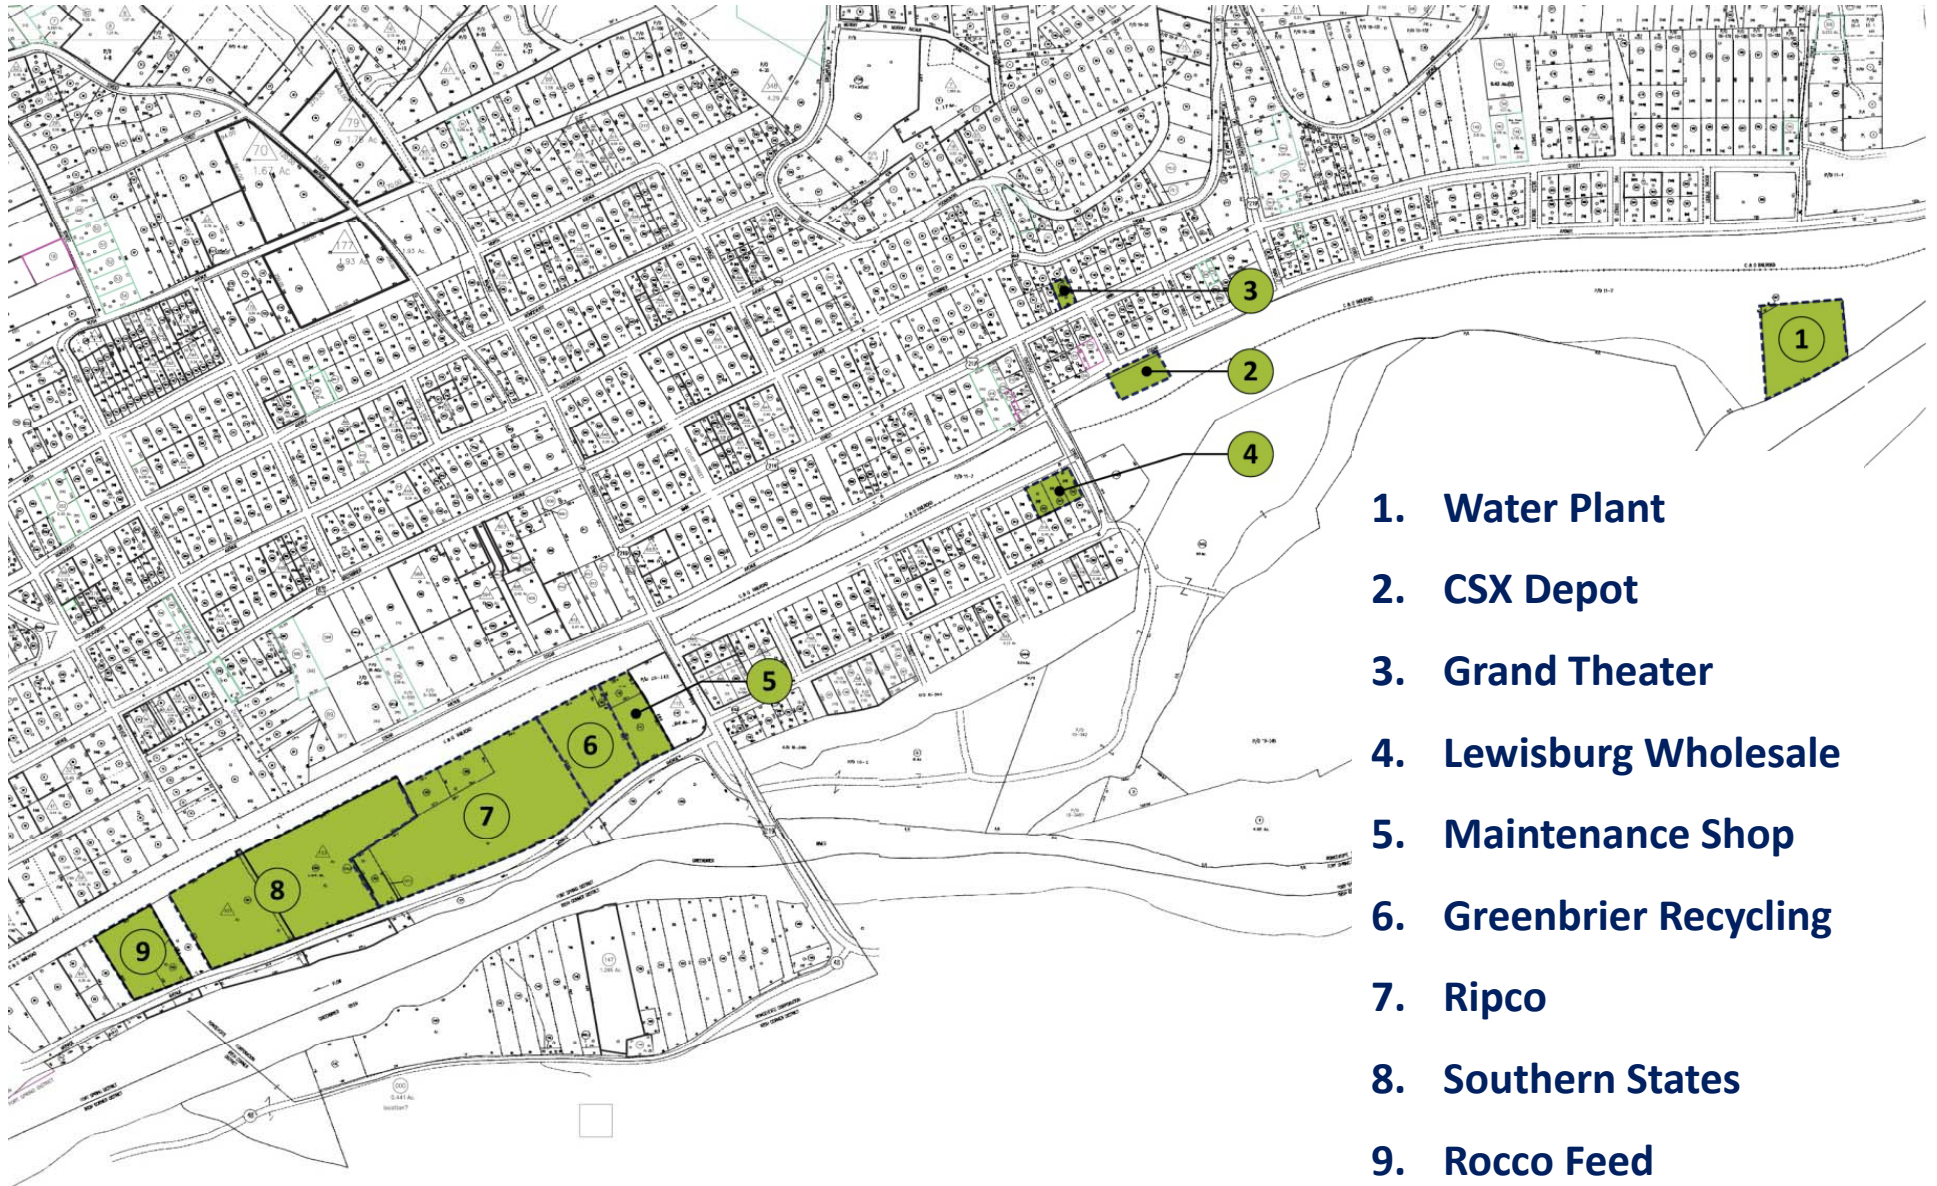

The Key Issues That May Drive Project Recommendations

- Identifying a “Project” --How big is big enough, but not too big?
- Is land assemblage required?
- Government “Time” versus “Developer Time”
- What tools are needed to motivate the private sector?

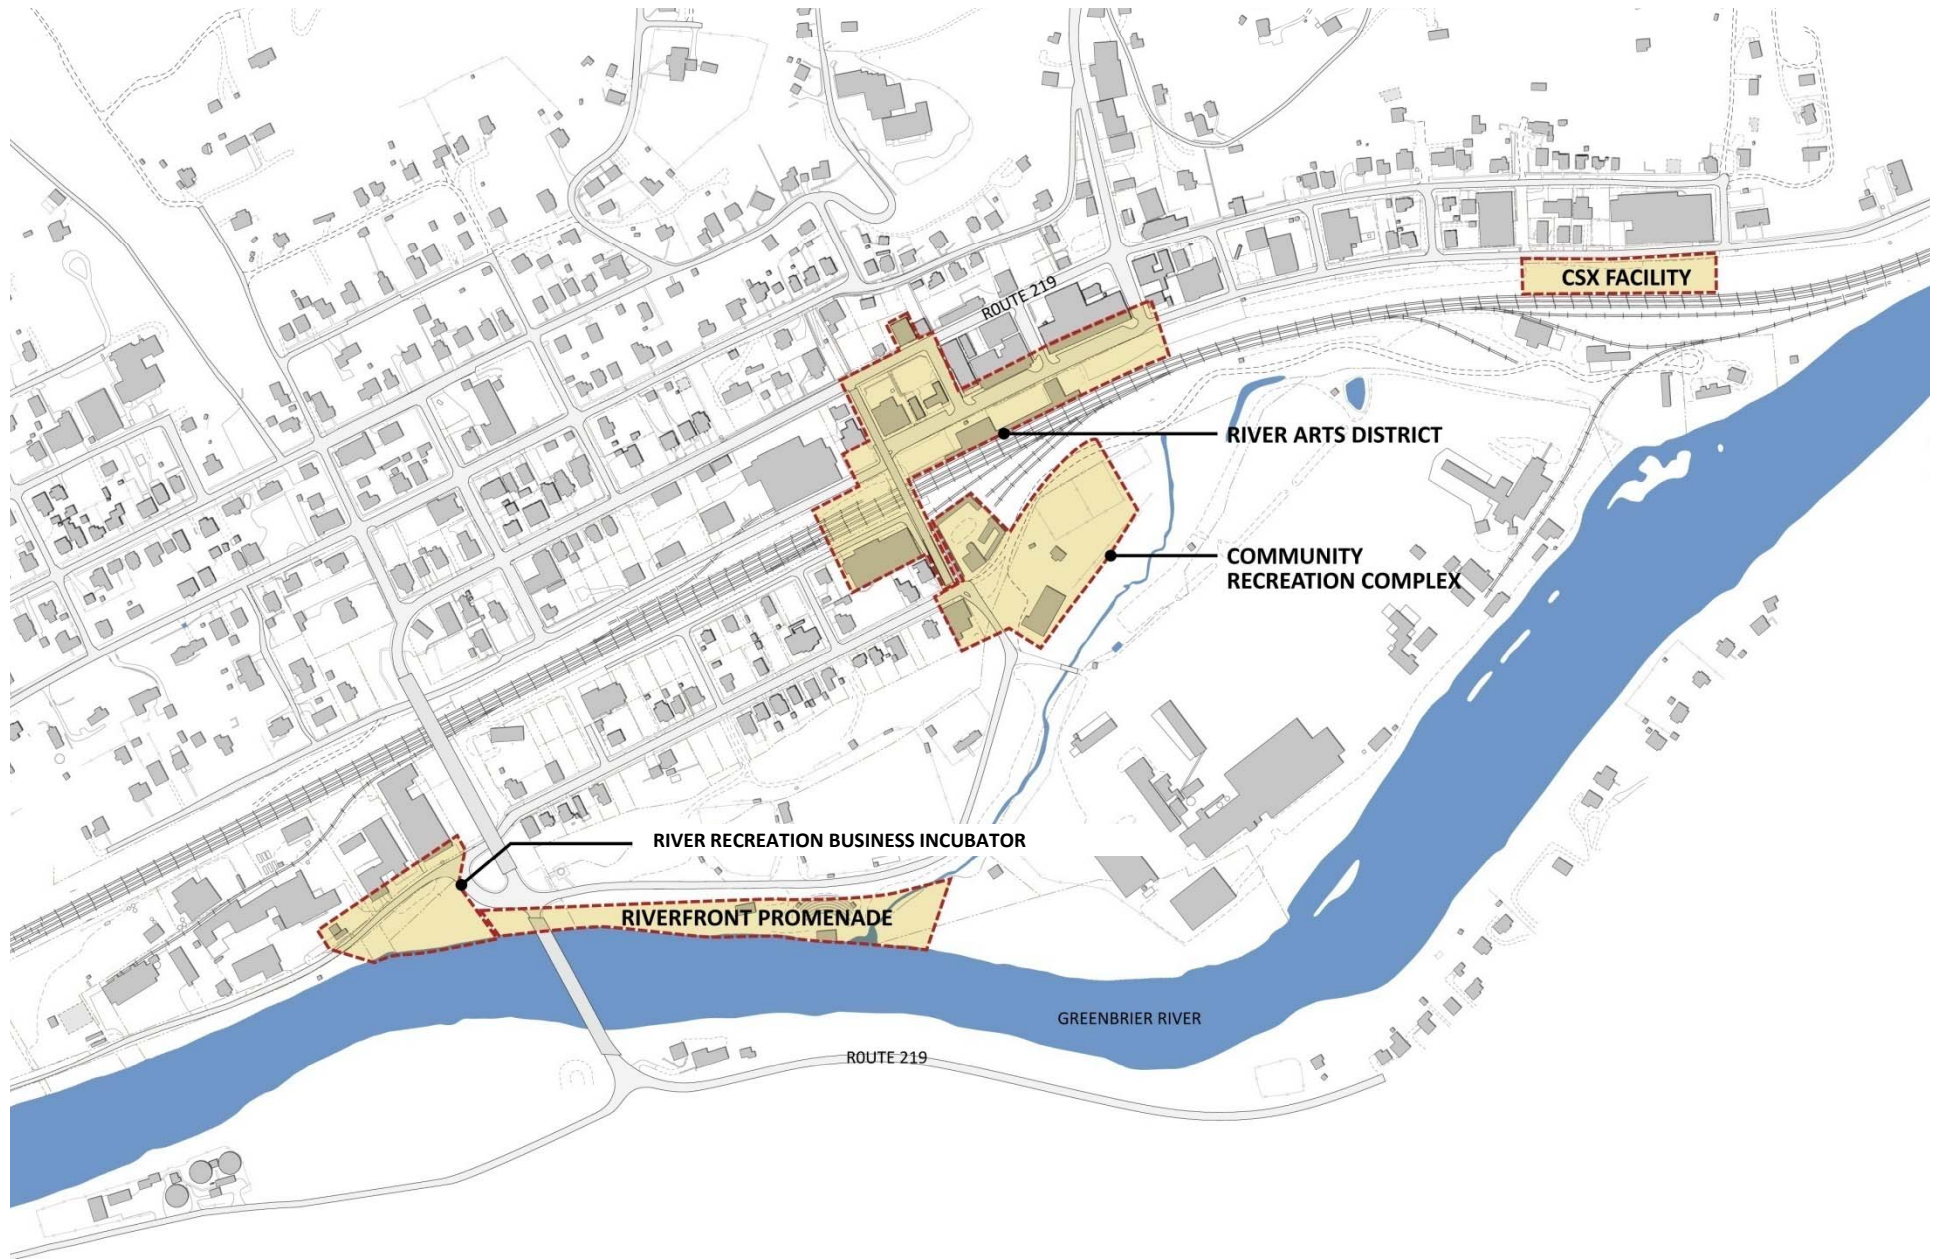

Key Project Elements/Deliverables

1. Site Reuse Plans for Targeted Study Areas
2. Broader Green Infrastructure Area-Wide Plan (Corridor-Wide)
3. Action Plan and Funding Strategies

Define Targeted Sites

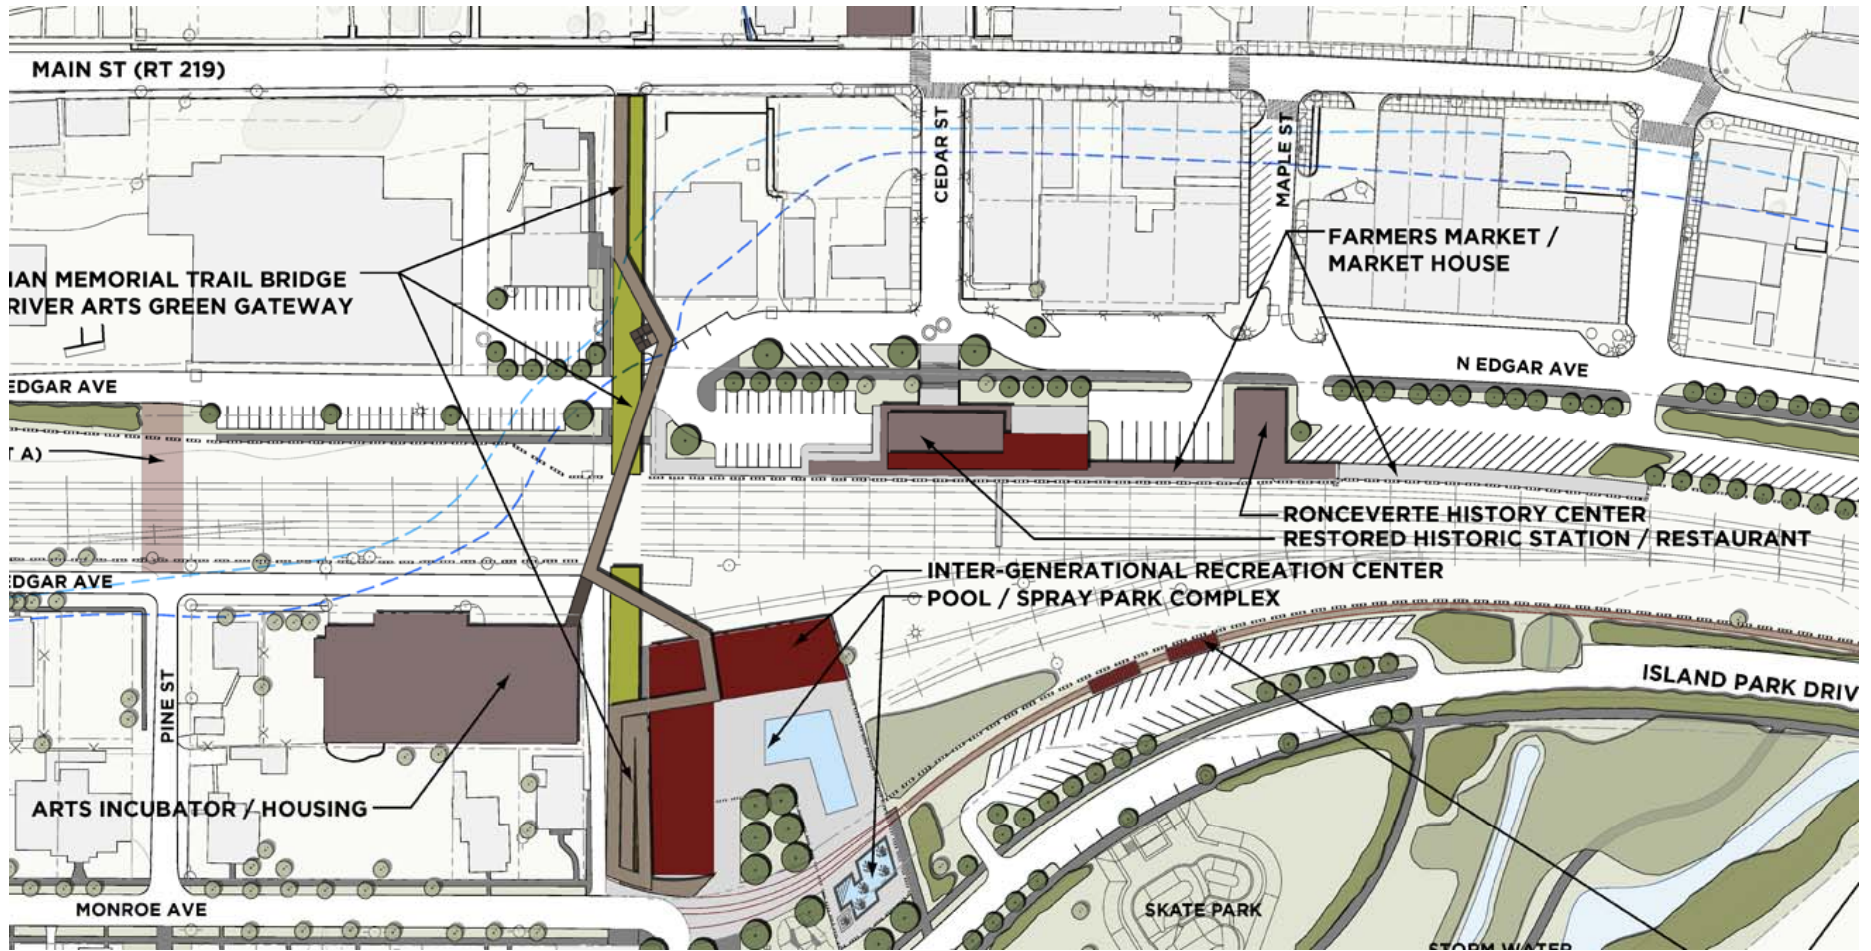

Formulate an Economic Development Framework

Create Overall Reuse Master Plan

Create Overall Reuse Master Plan

Coraopolis – Riverfront

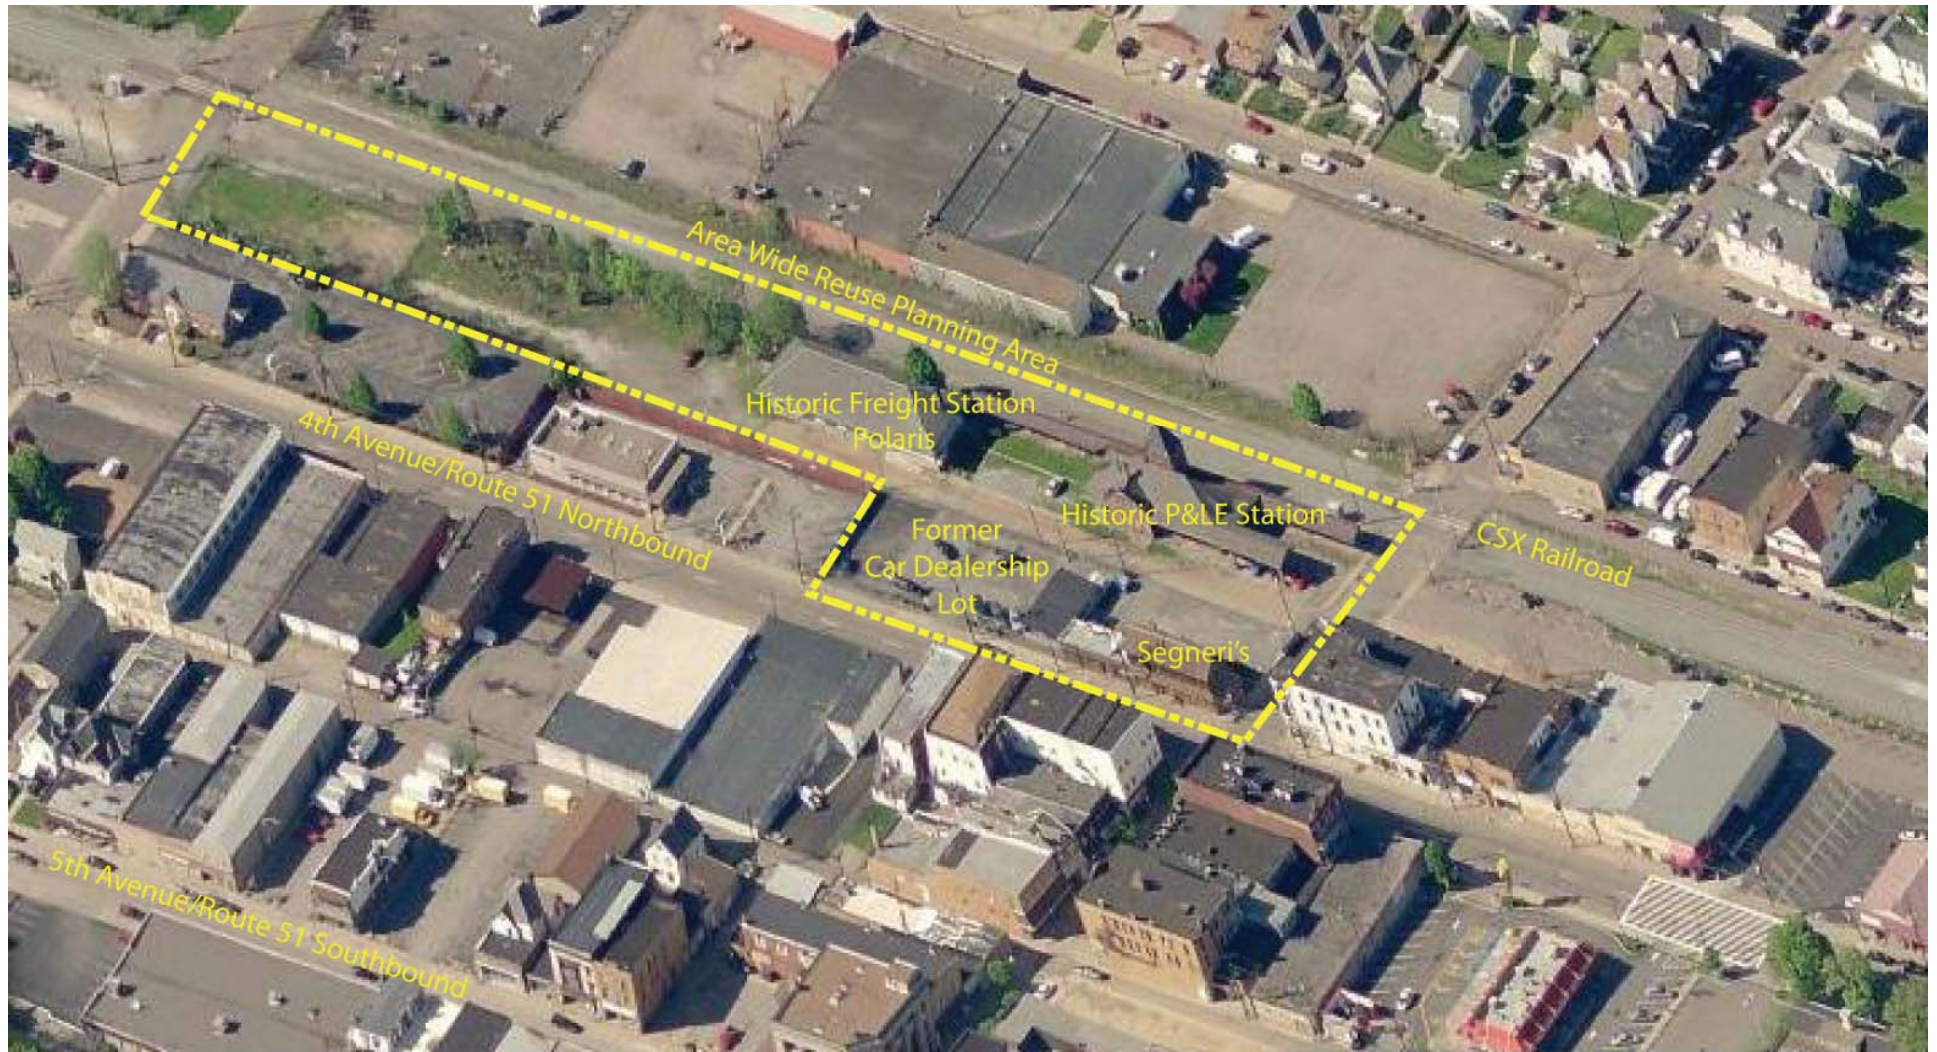

Coraopolis – Riverfront

Starting Point:

- *Focus on river recreation – marina*
- *Extend public street access*
- *Extend public access (ORT) along riverfront parcels*
- *Connection to proposed Allegheny Recreation Complex on Montour Railyard (Sports Legacy) site*
- *Industrial redevelopment potential*
- *Stormwater management improvements*

Coraopolis – Station Area

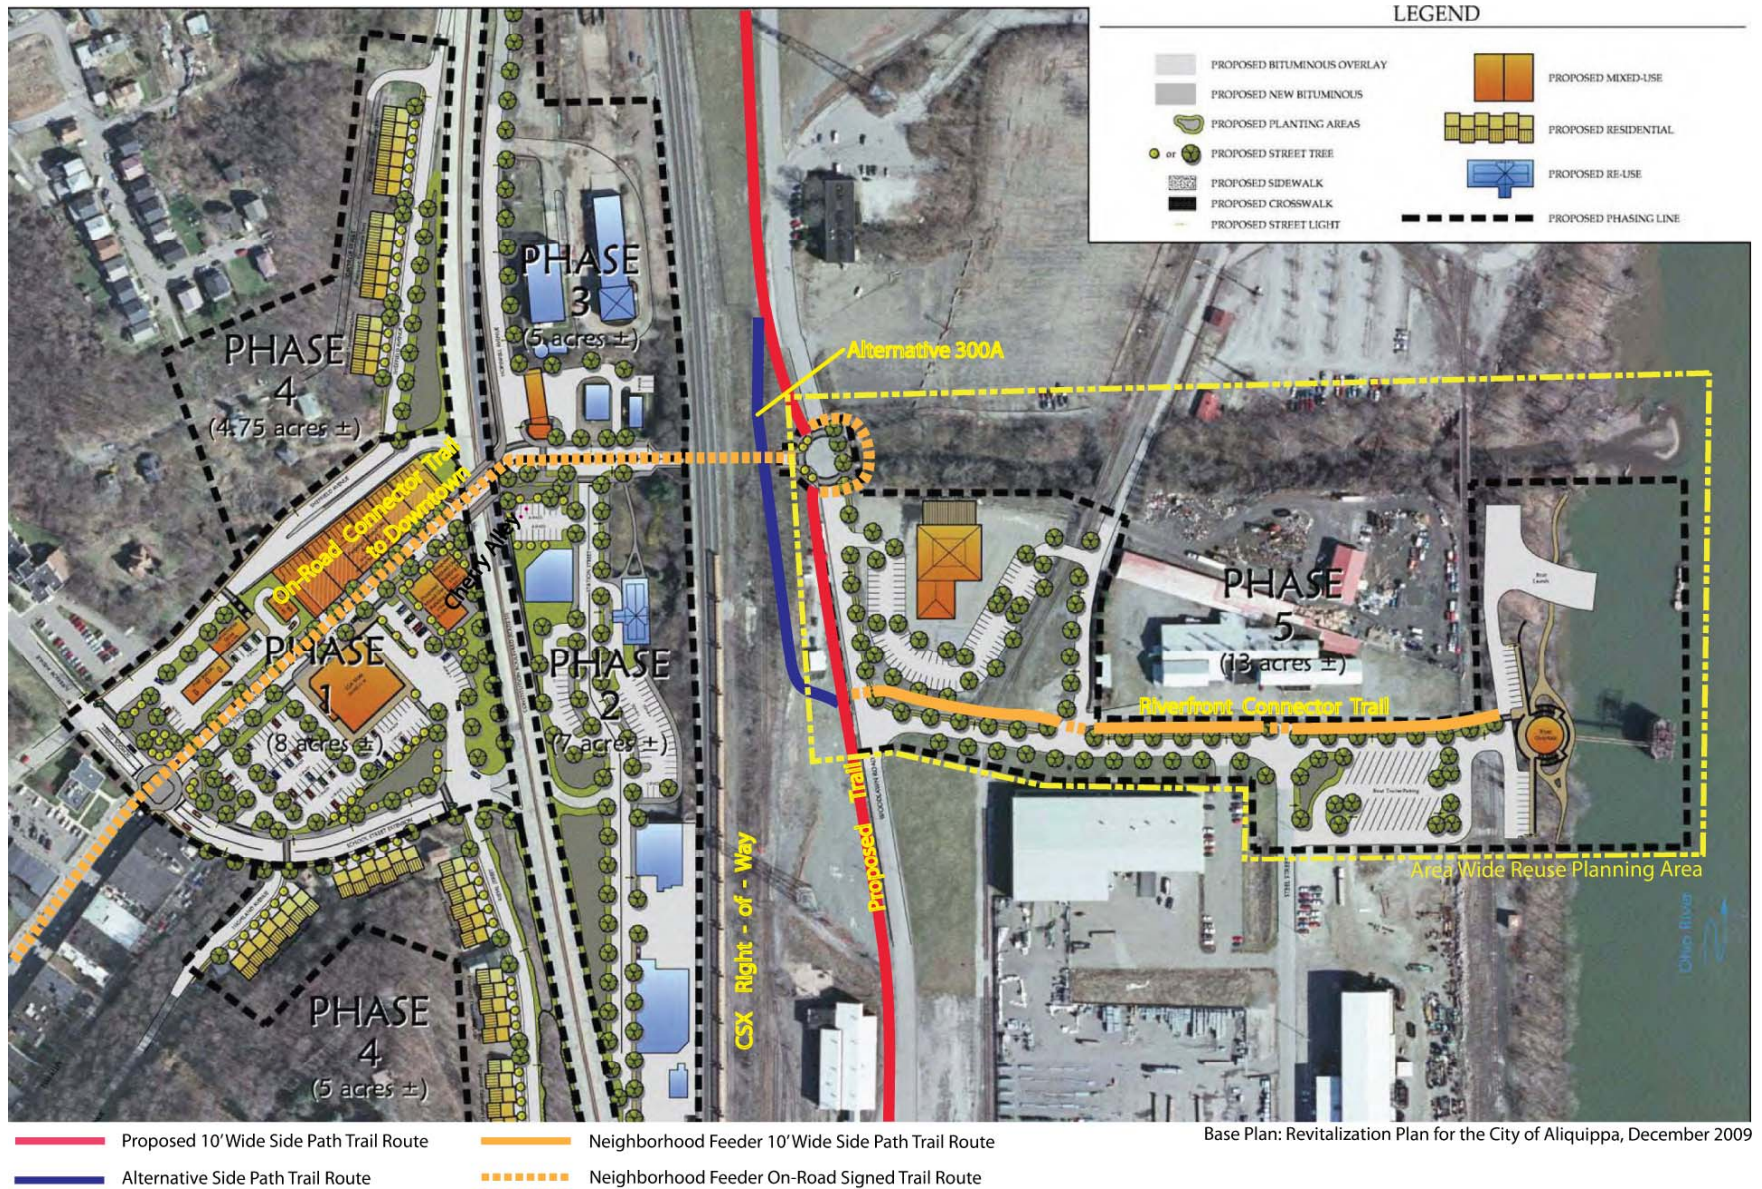

Coraopolis – Station Area

Starting Point:

- ***Focus on Reuse of Historic Train Station***
- ***Creation of Coraopolis Town Square***
- ***Capitalize on 4th Street frontage/traffic volumes***

Aliquippa –

Aliquippa –

Starting Point:

- *Build on recently adopted Revitalization Plan*
- *Creation of boat launch and riverfront park*
- *Improve environmental conditions of Logstown Run Outfall*
- *ORT Extension to River*
- *Explore potential for riverfront economic development potential*

Monaca –

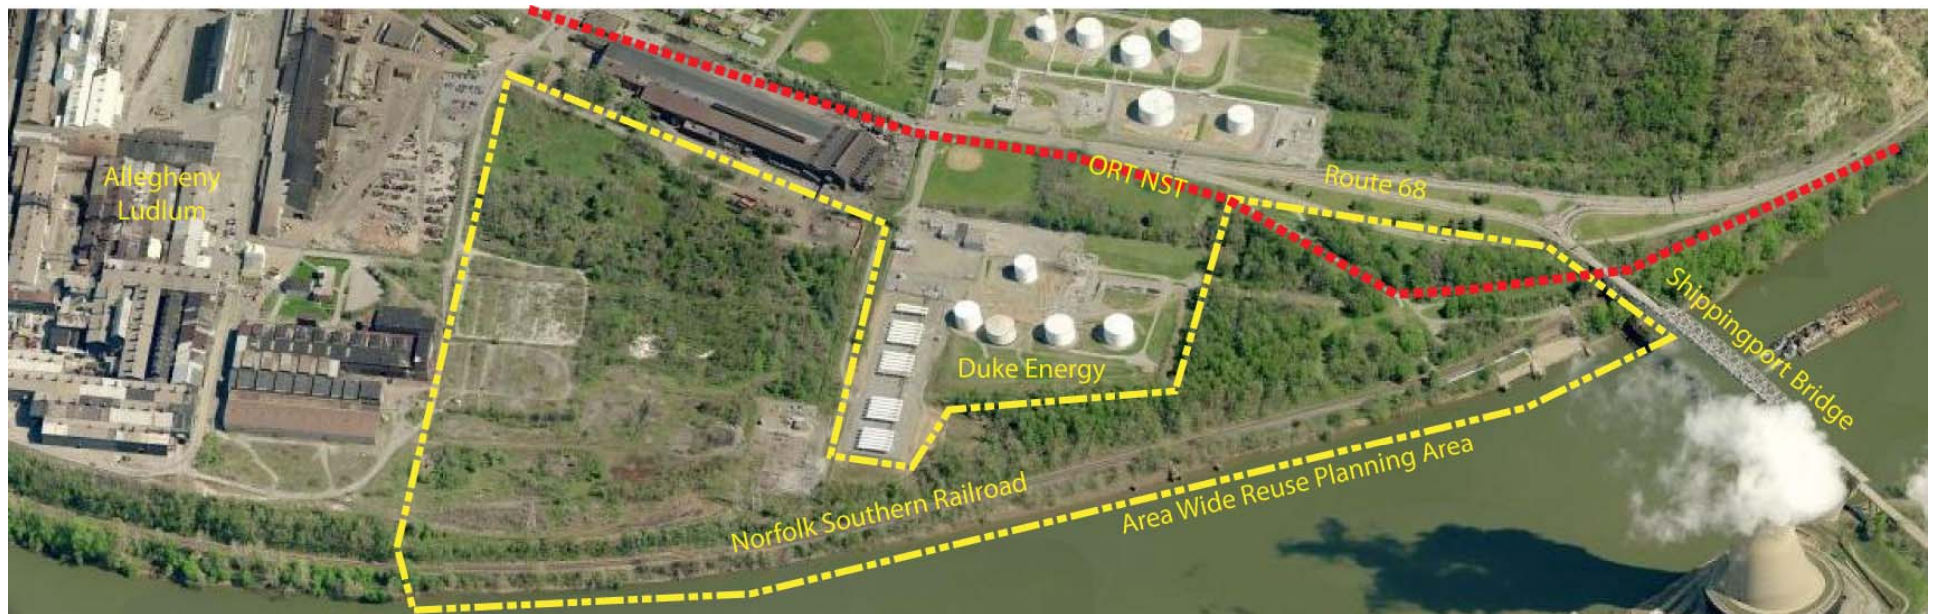

Monaca –

Starting Point:

- *Build on recent overall riverfront rezoning efforts to support mixed-use*
- *Mixed-use redevelopment with an emphasis on private-public recreation and potentially hospitality*
- *ORT extension to and along River's edge*
- *Green Infrastructure framework for redevelopment*

Midland – East

Midland – West

Midland – East & West

Starting Point/Observations:

- *Programmatic parameters TBD*
- *Large scale active industrial uses including energy uses*
- *ORT extension mostly along PA Route 68*
- *NS close proximity to River's edge*
- *Green Infrastructure framework as a catalyst to attract investment*
