Re: U.S. EPA Brownfield Area-wide Planning Pilot Program Grant Application

Dear Mr. Leone:

I am writing to inform you of our support for Monaca Borough's application for a \$175,000 U.S. EPA Brownfield Area-wide Planning Pilot Program grant.

Monaca Borough represents one of many communities along the Ohio River Trail Corridor that could benefit from the redevelopment of Brownfield sites to provide added public access and "connectivity" to the outstanding natural resource that is the Ohio River.

As the director of FirstEnergy Generation Corp.'s Bruce Mansfield Plant, I can tell you that we have been proud to be a part of the Ohio River corridor for more than 30 years. We support Monaca Borough efforts to obtain a grant that ultimately has the potential to bring great value to local communities and the entire region.

Sincerely,

Frederick G. von Ahn
Director, Bruce Mansfield Plant
