June 10, 2011

Dear Ms. Gordon,

I am writing this email in support of the request to the Ohio River Trail Council in acquiring the Lewis property near Lock 57 Park in Ohioville. The Little Beaver Creek Land Foundation is a watershed organization that works to preserve and protect land in the Little Beaver Creek watershed, and this property right at the mouth of the Little Beaver Creek being preserved by the Ohio River Trail Council and the Independence Conservancy would work to further the mission of both organizations. This area has additional potential for recreation since it is near the popular Lock 57 Park and will be near the terminal point of the Great Ohio Lake-to-River Greenway once completed.

Thank you,

Lisa Butch
Watershed Coordinator
Little Beaver Creek Land Foundation
