

COOPERATIVE AGREEMENT P12AC31078

Between
The Department of the Interior
National Park Service
and
The Ohio River Trail Council

PROJECT TITLE: Upper Ohio River Water Trail, Pennsylvania Section
CFDA NUMBER: 15.943 Challenge Cost Share Program

This Agreement is made and entered into between the **Ohio River Trail Council**, a non-profit corporation and the United States Department of the Interior, National Park Service (NPS), also referred to as Cooperator.

ARTICLE I – BACKGROUND AND OBJECTIVES

The Ohio River has resources of national significance as evidenced by recent federal initiatives. The Upper Ohio River, from the river's origin in Pittsburgh, downstream to the OH/WV/PA line, is included in the Lewis & Clark National Historic Trail's "Eastern Legacy Special Resource Study" currently underway. In addition, the Ohio River Islands National Wildlife Refuge was created in 1990, to protect wildlife and native habitats, and public use and environmental education are critical to the mission, and two of the islands, Phillis and Georgetown Islands, are within Pennsylvania. The segment of the Ohio River in Pennsylvania is also within the boundary of the Rivers of Steel National Heritage Area.

Much of the Ohio River region directly downstream of Pittsburgh is a blighted post-industrial urban area, struggling to redefine themselves as river towns. There are many derelict, unused industrial sites along the river (and US EPA brownfields assessment funds are studying reclamation/reuse options). The view of the communities from the river is much different, offering green banks and broad waters.

The southwestern Pennsylvania region is experiencing a rapid growth in interest and use of our rivers, as exemplified by the adjacent Three Rivers Water Trail in the Pittsburgh area and Allegheny County. This is emblematic of a national upward trend in the popularity of human-powered recreation. To address this growing appeal and to introduce more people to the recreational and environmental renewal of the Ohio River, the ORTC is creating the Ohio River Water Trail System.

The entire Ohio River is a lock & dam river, managed by the US Army Corps of Engineers, Pittsburgh District. There are barges and recreational motor boats that ply the waters, but a canoe/kayaker staying close to the shoreline would be kept out of their way.

Since 2009, the Ohio River Trail Council (ORTC) has been working on developing the vision for a land and water trail along the Ohio River in PA. The ORTC formed to

improve the quality of life in the Ohio River towns in PA, works closely with the 29 municipalities, and all have passed Resolutions supporting this partnership. The Port of Pittsburgh has been supportive in their grant-giving to improve access sites. The Pennsylvania Environmental Council is helping with community-based planning to acquire state designation for the Upper Ohio River Water Trail. NPS-RTCA, through the WV Field Office, is assisting the ORTC in 2011 and 2012 with land and water trail development.

Objectives

The first objective is to establish a safe and marketable water trail along the Ohio River in Beaver County PA. The second objective is to designate the Upper Ohio River Water Trail as part of the Pennsylvania Water Trail Program, and also as part of the National Water Trail System. Because there are no organized paddling groups, nor youth programs, the third objective is to train up the next generation of conservation-oriented river users.

The Upper Ohio River corridor currently lacks maps and guides for boaters, directional and informational signage and kiosks, and canoeing and kayaking programs.

Efforts are underway by the Ohio River Trail Council to create a 40-mile land and water trail along the Upper Ohio River. The creation of the Upper Ohio River Water Trail will jump-start local efforts downstream to promote and protect the Ohio River, and share the history and beauty of what was historically known as "Ohio - great river".

Improving access sites for paddlers and establishing a Youth Paddling Program will attract caring attention to the river, and those who love the river will work to protect it. The Ohio River Water Trail will be designed to provide safe non-motorized boat launches and easy shore access, maintain and respect the environment's natural character, and promote responsible use of our rivers.
