Grant Project Narrative

Organization Mission Statement

The Ohio River Trail Council (ORTC) works to bring individuals, groups, councils, communities, businesses, recreational users and all levels of government together to promote and protect a continuous corridor of natural and cultural resources along the Ohio River and its tributaries. The ORTC's goal is to honor our past and build our future by providing recreation opportunities, heritage development, environmental stewardship, safe transportation networks and economic stimulus.

Project Description Including Problem(s) to be Addressed and Anticipated Schedule

The Ohio River Trail Council (ORTC) in partnership with the Port of Pittsburgh Commission, National Park Service RTCA, U.S. Coast Guard, and the Pennsylvania Environmental Council is continuing its development of a water trail system along the Ohio River and its tributaries. The ORTC Ohio River Water Trail (ORWT) Committee, established May 11, 2012 includes representatives from the Pennsylvania Fish & Boat Commission, US Fish & Wildlife Service's Ohio River Islands National Wildlife Refuge, US Army Corps of Engineers and local communities and interested non-profit organizations.

The Ohio River Water Trail (ORWT) Project goal is to provide safe access to our waterways while also providing connections to our history, ecology, geology, heritage, wildlife and economic stimulus. The ORWT Project specifically provides for the expansion of canoe, kayak and rowing access along a 63-mile water trail which extends from the beginning of the Ohio River at milepost 0.0 at the confluence of the Monongahela and Allegheny Rivers at Point State Park in Pittsburgh PA, downstream to Newell WV at milepost 46.0. The ORWT also includes the following tributaries: 1) twelve-miles of the Little Beaver Creek to Beaver Creek State Park, 2) three-miles of the Beaver River to the Townsend (Fallston) Dam, and 3) two-miles of the Raccoon Creek including the Rocky Bottom Raccoon Creek Road launch.

On January 4, 2013, the Upper Ohio River Water Trail was added to the Pennsylvania Water Trail System. This achievement has earned the right to be listed on the Pennsylvania Fish & Boat Commission (PFBC) website and Paddle PA publication. In addition, this accomplishment will assist our partner communities to meet our shared goal of increased ecotourism and economic stimulus as well as improved utilization of our natural and recreational resources.

In 2013 our project focuses on the completion of the Water Trail Map & Guide. The map will be invaluable to paddlesports enthusiasts, motor boaters and anglers. In addition, physical improvements like kayak racks and signage are to be added to the small watercraft launches at Freedom and New Brighton, Pa. Furthermore, installation of important river mileage markers at Leetsdale, Freedom, Monaca, Rochester and Shippingport is planned. The ORTC is also developing a youth based canoe/kayak program to begin in the summer of 2013.

Our multi-municipal organization is committed to excellence and has passion for delivering outstanding results. The council is composed of a dedicated and visionary leadership to develop strategies and implement our initiative. We ask the Port of Pittsburgh to continue to work with us to capitalize on our strengths and assist us in implementing our vision.

Date:

Please sign and return a copy of this quote when ordering. Visa & MasterCard Accepted. Quotations good for 30 days. 1 1/2% Interest added to past due invoices.

Warranty SignPro warrants its products to be free from defects in material and workmanship for the period of one year from the date of delivery.

The warranty covers the costs relating to labor and material to effect replacement of any or all parts with such defects. Warranty excludes damage due to vandalism and acts of nature. Lamps and electrical components are warranted for a period of 30 days for the cost of the replacement part, but does not include labor to remove and replace the defective part.

Transformers and ballasts are covered by the manufacturers warranty. Labor to replace the transformer or ballast is not included in warranty. Electric power to be run to site by others.

Due to the temporary nature of banners and being vulnerable to extreme weather conditions, only the brackets and hardware are warranted. Computer generated artwork to be in proper format by client. Pricing is based on the purchase of the entire proposal and acceptance of our standard insurance limitations. Any changes or additions to these limits may add additional cost to the final price. Pricing is based on entire proposal. Installation is based on non-union rates unless specified on quotation.

Proposal for excavation of footings is based upon normal soil conditions. Encountering excessive rock, clay, natural or manmade obstructions which require additional digging or the need for renting excavation equipment, will be performed at an added charge based upon time and material.

Engineers stamp and labor to calculate specifications will be added to the cost of the sign when required, as with many signs in the City of Pittsburgh.

| • Type 'R1' Production / sheet#4 | ☐ | ☐ | ☐ |
| • Type 'R1' Production / sheet#5 | ☐ | ☐ | ☐ |

NOTE -

• DRAWINGS MARKED '**TYPICAL**' REPRESENT THE STANDARD METHOD OF PRODUCTION AND ALL COLORS, MATERIALS AND SPECIFICATIONS FOR THAT PARTICULAR SIGN TYPE. WHEN APPROVING DRAWINGS MARKED 'TYPICAL' YOU ARE CONFIRMING THE OVERALL LAYOUT OF THE SIGN TYPE ALONG WITH ALL MATERIAL, COLOR CHOICES, SIZES , ETC MOST OFTEN WITH A TYPICAL DRAWING, ANY COPY OR GRAPHICS ARE USED AS PLACEHOLDERS FOR THE FINAL SIGN COPY.

• DRAWINGS MARKED '**PRODUCTION**' ARE USED TO REVIEW AND APPROVE ALL OF THE ACTUAL COPY AND GRAPHICS ON EACH INDIVIDUAL SIGN. FLOOR NUMBERS, SYMBOLS AND NAMES ARE PLACED AND LAID OUT AS THEY WILL APPEAR ON THE FINISHED SIGN. APPROVING A DRAWING MARKED 'PRODUCTION' MEANS YOU HAVE CHECKED AND APPROVE ALL INFORMATION ON EACH INDIVIDUAL SIGN.

IMPORTANT - PLEASE READ!

These drawings are submitted for your approval and were drawn with information provided by the client. Please review the drawings carefully and note any changes or corrections that may be required. Please double check all measurements, spelling, colors and sizes accurately. Also compare against your original SignPRO quote to verify items, quantities and materials. A signed and dated set of drawings is required for production to begin. If you require changes or corrections, please note on the drawing the revision(s) necessary and if production can proceed with change(s) noted, or if you require a new drawing reflecting the change(s).

Once a drawing has been signed and placed into production, any requested changes or omissions will be the responsibility of the client.

Please be thorough and contact your SignPRO representative or the Project Manager listed above if you have any questions regarding these drawings. Your signature means that you have reviewed each drawing and have approved all of the information. Drawings marked approved will be used for production and will supercede any other drawing.

Your timely response is critical in keeping an efficient production schedule and any deadlines regarding your installation. SignPRO is not responsible for delays in production or installation due to customer's inability to provide a timely approval of these drawings.

Thank you.
